1. Introduction

HR Intelligence Platform is an AI-assisted recruitment application for publishing jobs, receiving applications, parsing resumes and job descriptions, scoring candidate–job fit, and enabling Recruiters, Head of HR, and Executives (CEO) to evaluate applicants.

This user manual walks through every shipped screen with live screenshots. Follow each chapter in order, or jump from the Table of Contents to a specific module. Only features that exist in the current product are documented.

How to use this manual

- Start with Home, then Authentication, then the modules for your role (Recruiter, Head HR, or CEO).
- Each chapter lists Purpose, Navigation Path, Accessible Roles, then step-by-step actions with screenshots.
- Supported staff roles: RECRUITER, HEAD_HR, and CEO (read-only). Admin Login authenticates these roles.
- Recommended browsers: Chrome, Edge, Firefox, or Safari (latest). Desktop resolution 1280×720 or higher.

2. Home

Purpose

Public landing experience: cinematic hero, Watch Demo, Features / Solutions / Pricing / Contact, and Get Started to the jobs board.

Navigation Path

/ · Get Started → /jobs · Watch Demo · #features · #solutions · #pricing · #contact

Accessible Roles

Public

Description / Business Purpose

This chapter documents the live UI for Home. Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Open the application URL

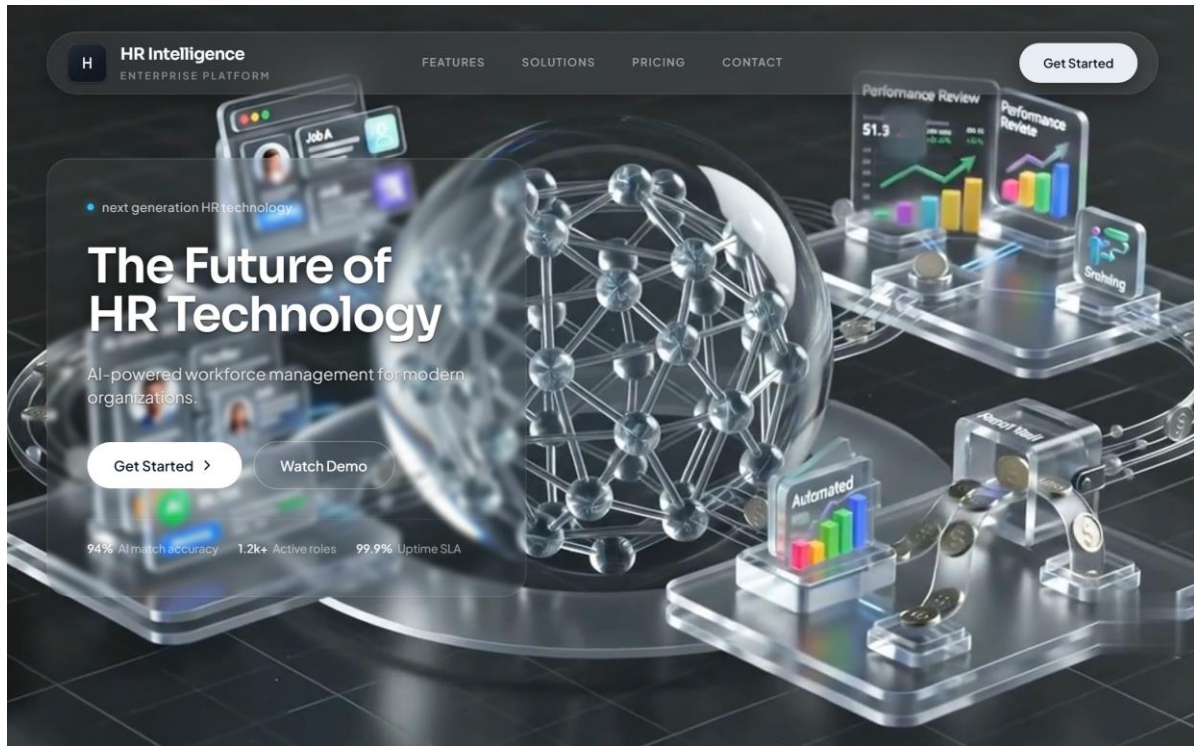

Figure 2.1 Home / Landing page

Description:

- Home / Landing page

Expected Result:

- Dark cinematic landing with HR Intelligence nav (Features, Solutions, Pricing, Contact), hero copy, Get Started and Watch Demo

Step 2

Action:

- Click Watch Demo on the landing hero

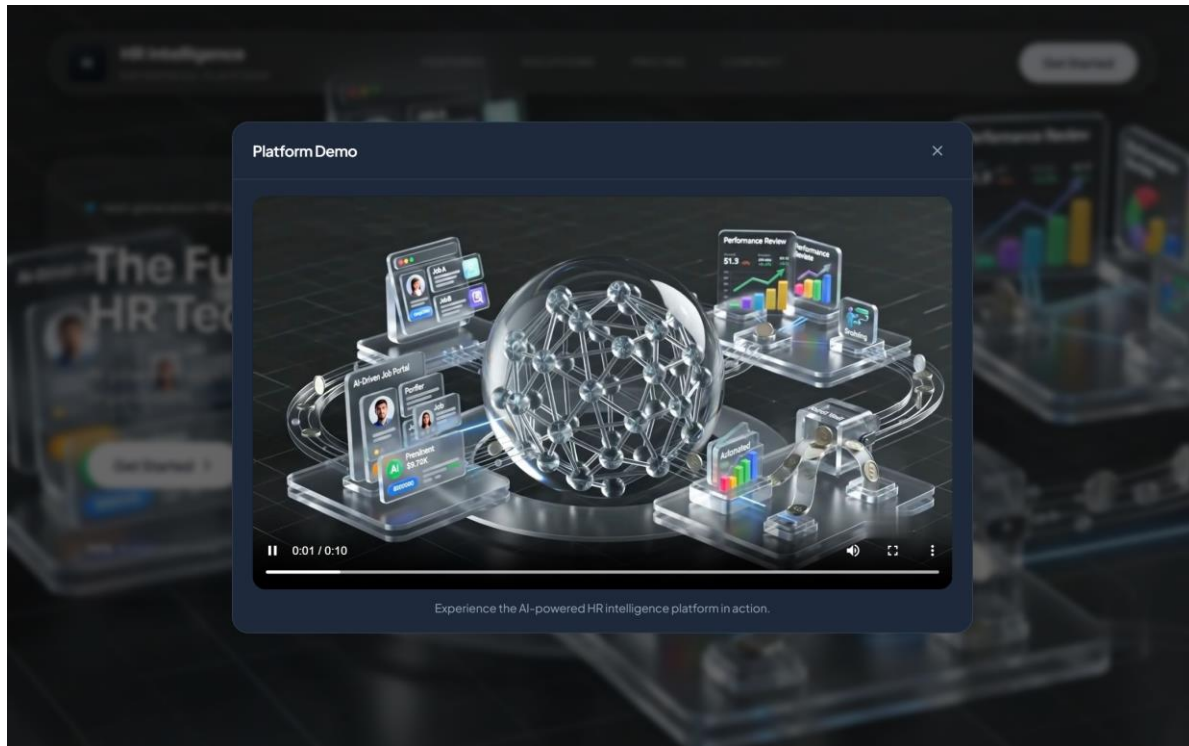

Figure 2.2 Watch Demo modal

Description:

- Watch Demo modal

Expected Result:

- Platform Demo modal opens with the product walkthrough video

Step 3

Action:

- Scroll the landing page (or use Features / Solutions / Pricing / Contact in the nav)

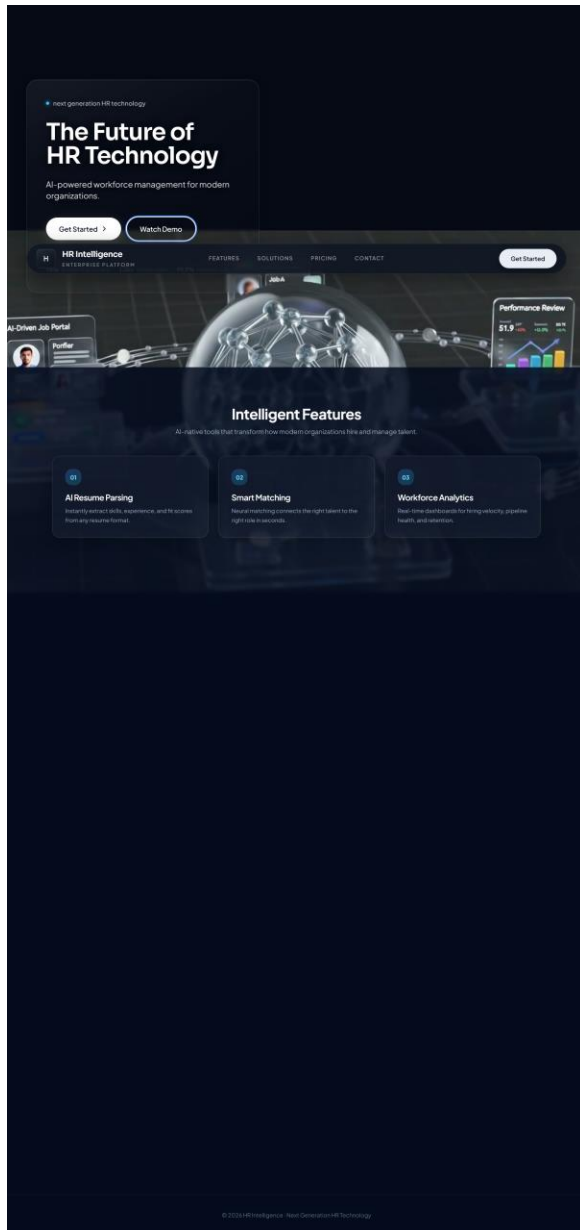

Figure 2.3 Landing — Features, Solutions, Pricing, Contact

Description:

- Landing — Features, Solutions, Pricing, Contact

Expected Result:

- Intelligent Features, Solutions, Pricing tiers, and Contact Us CTA

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

3. Authentication

Purpose

Staff login and password recovery for Recruiter, Head HR, and CEO accounts. Forgot password sends a 6-digit OTP (valid 10 minutes), then verify OTP and set a new password. New staff accounts are created by Head HR (Admins), not via public self-signup.

Navigation Path

/login → /login/admin → /forgot-password/admin → verify OTP → reset password

Accessible Roles

Public (unauthenticated); after login: RECRUITER | HEAD_HR | CEO

Description / Business Purpose

This chapter documents the live UI for Authentication. Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Open /login

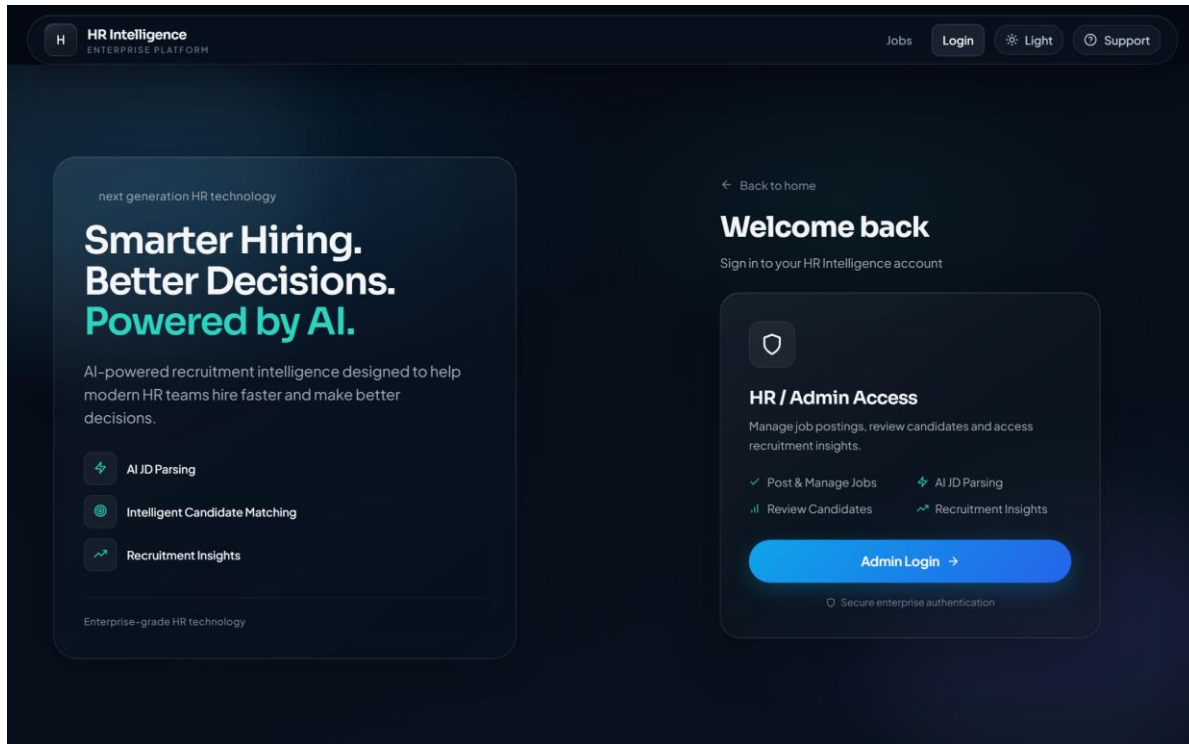

Figure 3.1 Login chooser

Description:

- Login chooser

Expected Result:

- Split-screen login: product story on the left, HR / Admin Access card with Admin Login

Step 2

Action:

- Open Admin Login

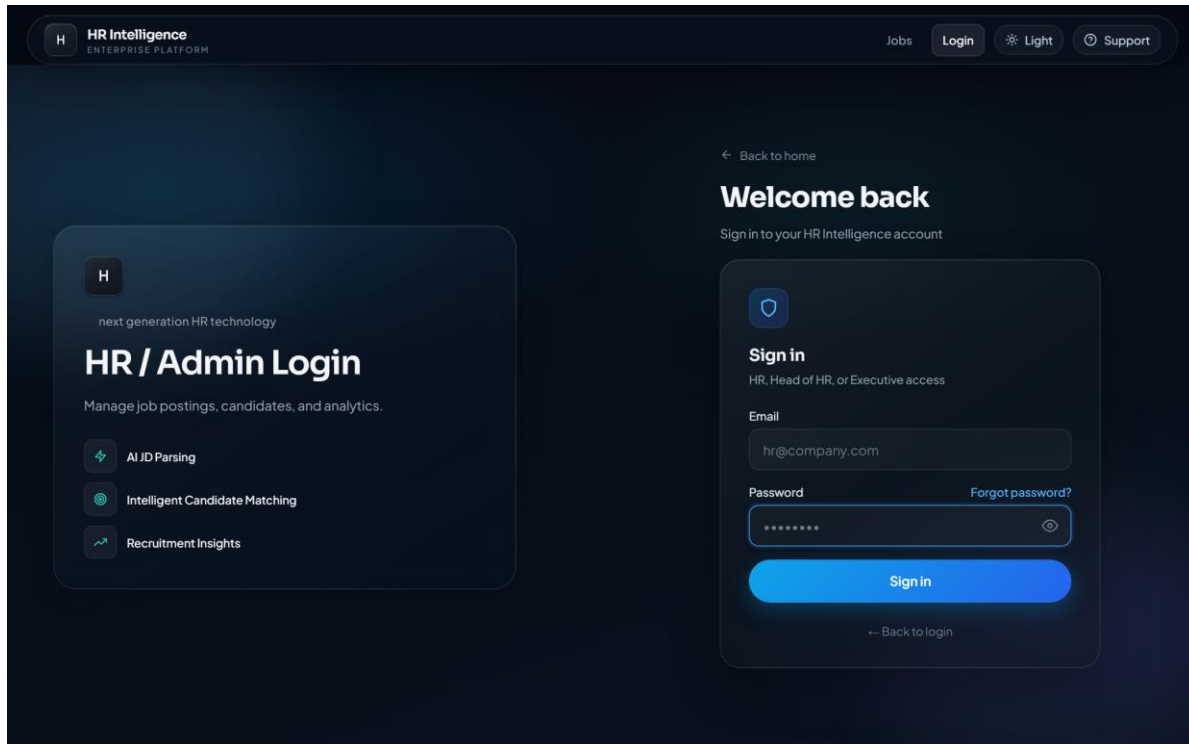

Figure 3.2 Admin login form (empty)

Description:

- Admin login form (empty)

Expected Result:

- Email and password fields with Sign in button

Step 3

Action:

- Enter staff email address

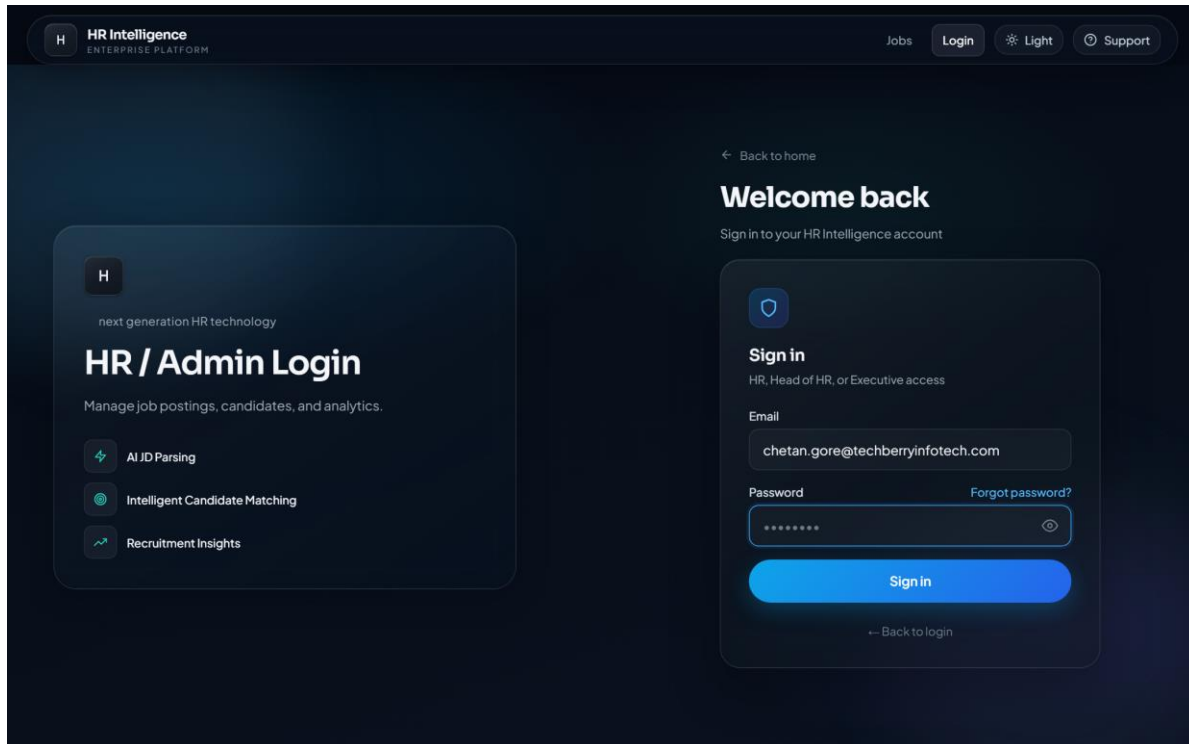

Figure 3.3 Email entered

Description:

- Email entered

Expected Result:

- Email field shows the entered address; password still empty

Step 4

Action:

- Enter password

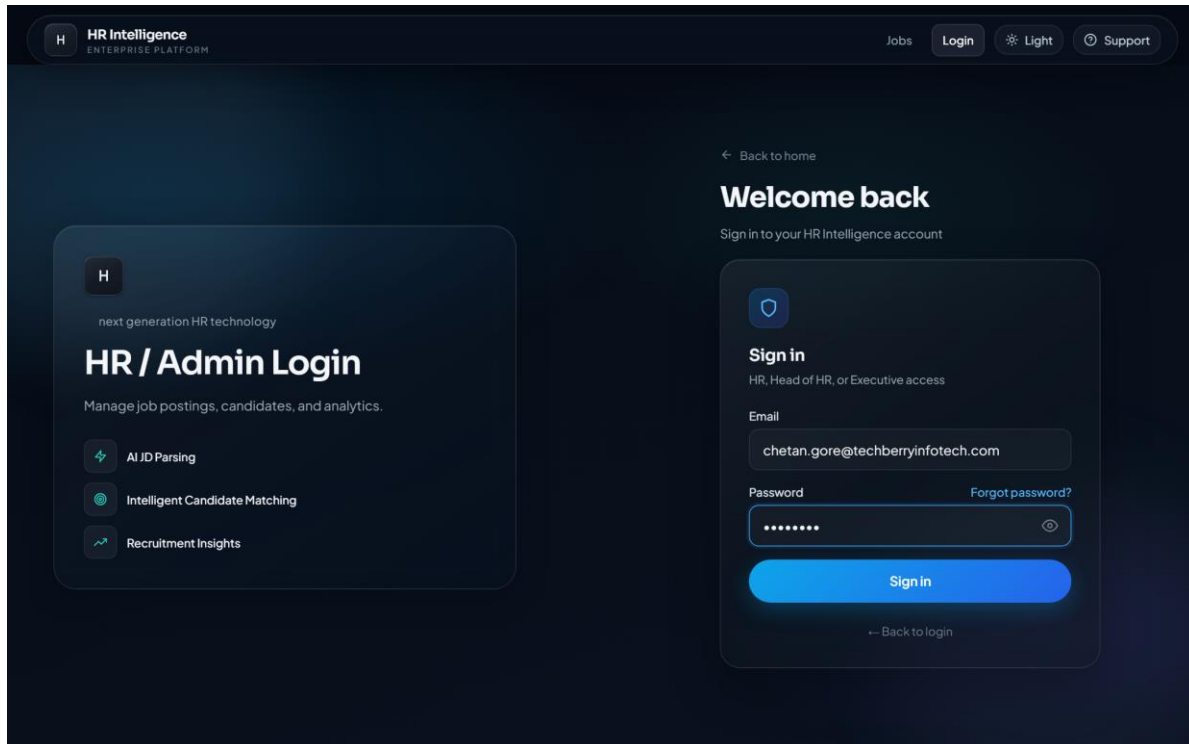

Figure 3.4 Password entered

Description:

- Password entered

Expected Result:

- Password field is filled (masked)

Step 5

Action:

- From Admin Login, open Forgot password and enter work email

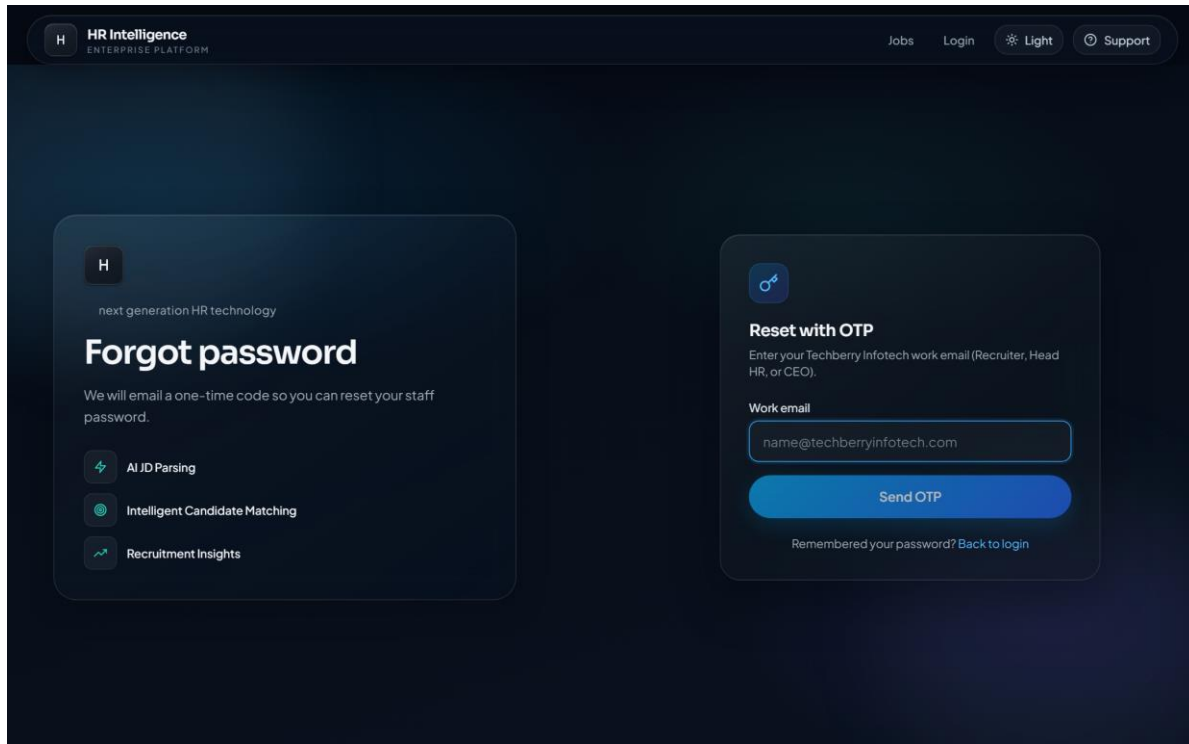

Figure 3.5 Forgot password — request OTP

Description:

- Forgot password — request OTP

Expected Result:

- Reset with OTP form: work email field, Send OTP, Back to login

Step 6

Action:

- Enter the staff work email, then click Send OTP

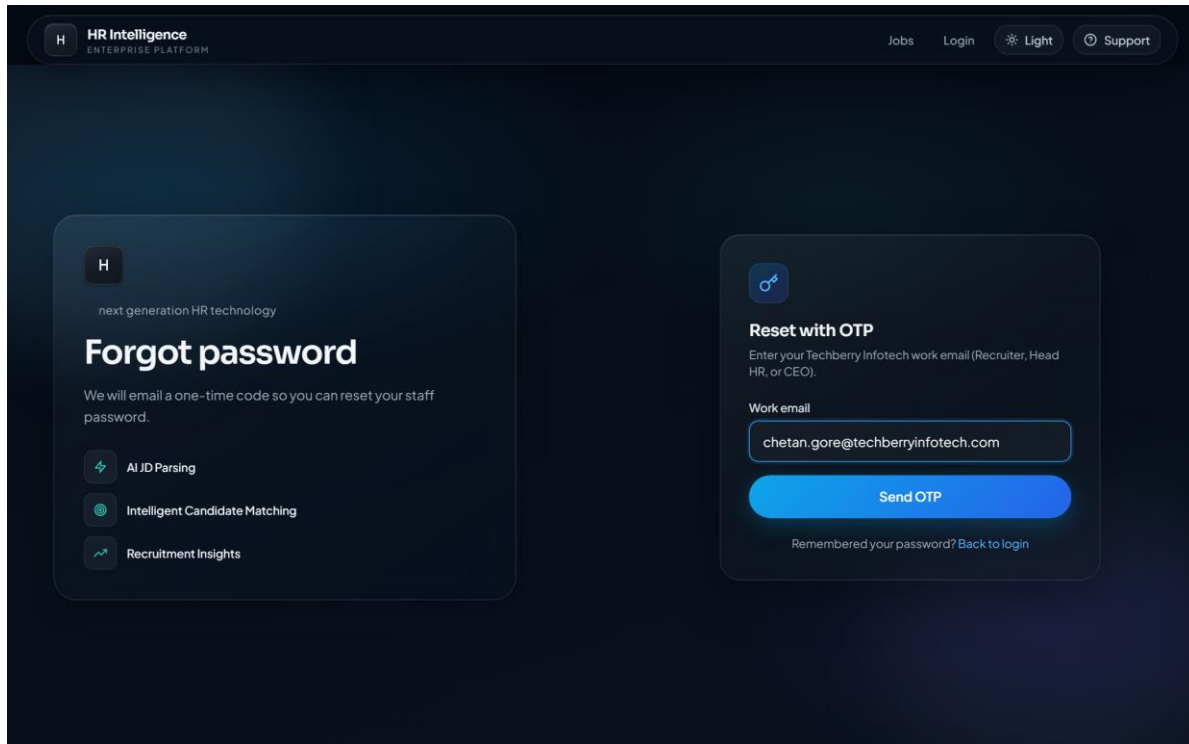

Figure 3.6 Forgot password — email entered

Description:

- Forgot password — email entered

Expected Result:

- Work email filled; Send OTP ready; note that OTP is valid for 10 minutes

Step 7

Action:

- Open the email, copy the 6-digit OTP, enter it, optionally Resend OTP

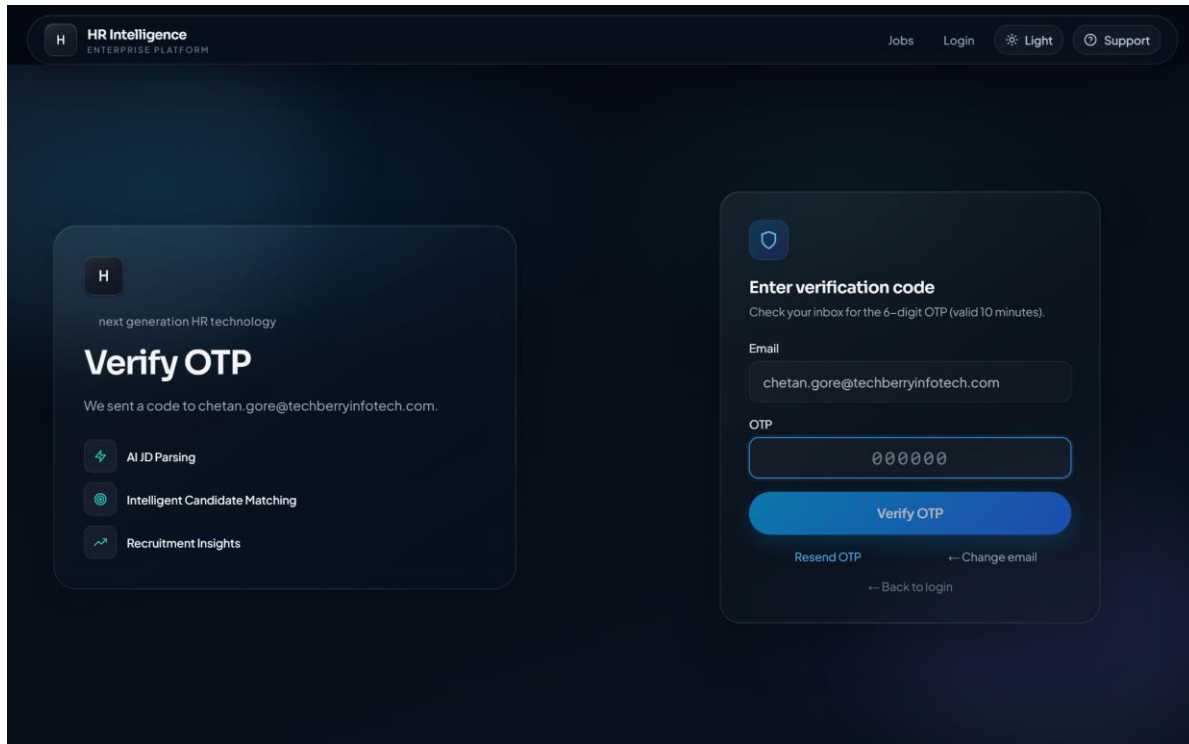

Figure 3.7 Forgot password — verify OTP

Description:

- Forgot password — verify OTP

Expected Result:

- Verify OTP form with email (read-only), 6-digit OTP field, Verify OTP and Resend OTP

Step 8

Action:

- After OTP verification, choose a strong new password and confirm it

The screenshot shows the 'Set new password' interface of the HR Intelligence Enterprise Platform. On the left, a sidebar lists features: AI JD Parsing, Intelligent Candidate Matching, and Recruitment Insights. The main area is titled 'Set new password' and prompts the user to 'Choose a strong password you have not used before.' The 'Create new password' section lists five requirements: at least 8 characters, one uppercase letter (A-Z), one lowercase letter (a-z), one number (0-9), and one special character (e.g., !, #, \$, %, ^, *). Below these are two input fields: 'New password' and 'Confirm password', both showing a strength indicator 'Meet all requirements above'. A blue 'Reset password' button and a link to 'Back to OTP verification' are at the bottom.

Figure 3.8 Forgot password — set new password

Description:

- Forgot password — set new password

Expected Result:

- Create new password form with strength rules, Reset password button

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

4. Jobs (Public Board & Apply)

Purpose

Browse published jobs and submit applications via the apply modal.

Navigation Path

/jobs

Accessible Roles

Public (apply); staff may browse but cannot apply while signed in as staff

Description / Business Purpose

This chapter documents the live UI for Jobs (Public Board & Apply). Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Open Jobs from the navigation bar (or Get Started)

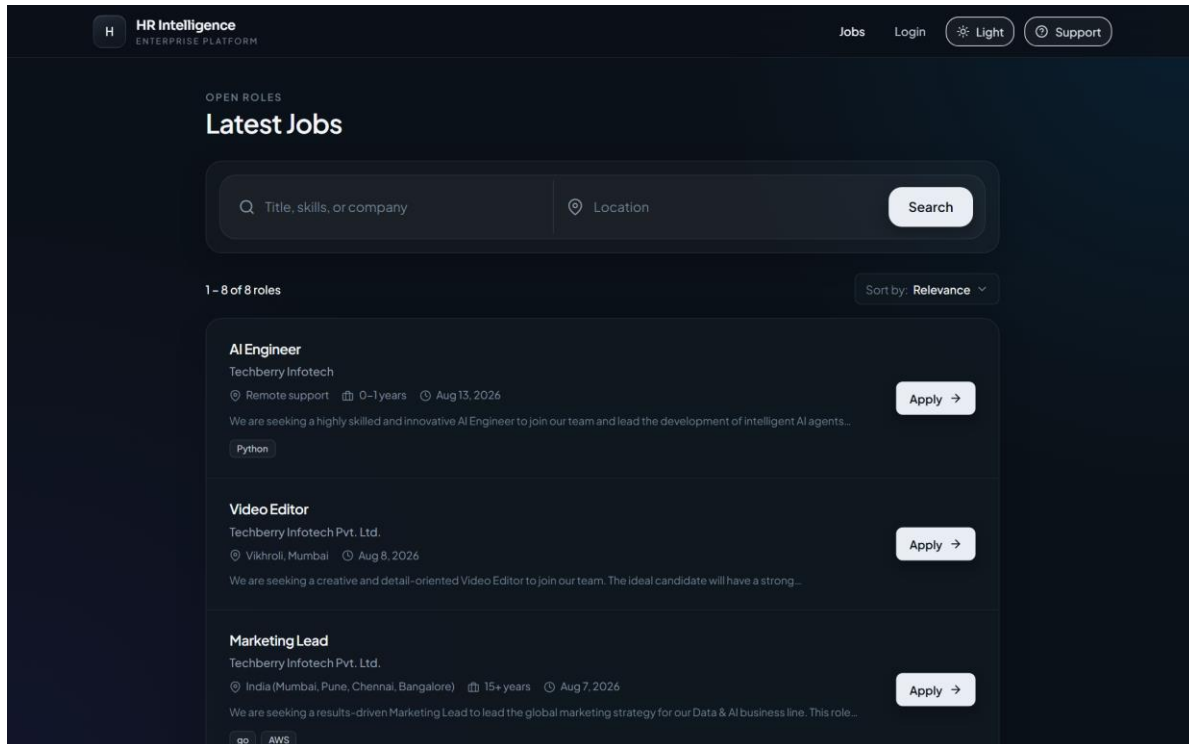

Figure 4.1 Public jobs board

Description:

- Public jobs board

Expected Result:

- List of published jobs with search/filter controls

Step 2

Action:

- Click Apply on a job card

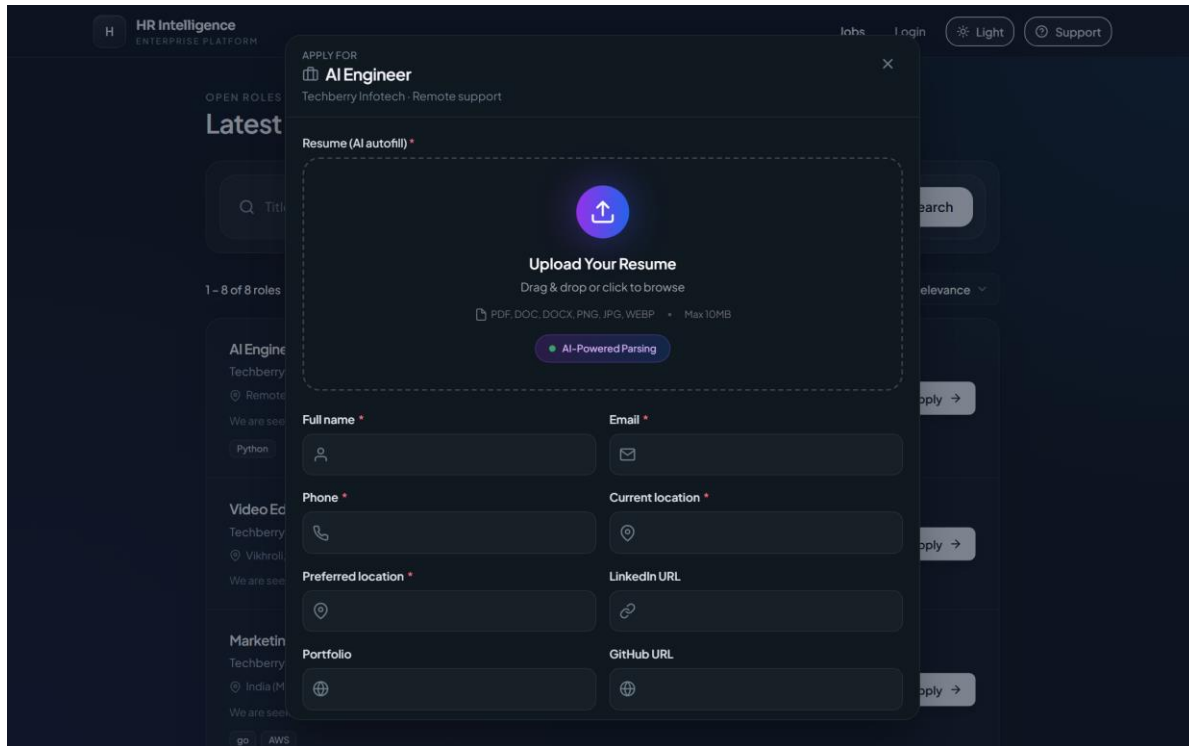

Figure 4.2 Apply to job modal

Description:

- Apply to job modal

Expected Result:

- Application modal opens with resume upload and profile fields

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

5. Support

Purpose

FAQ, Contact Us, and HRMS Testing Feedback channels.

Navigation Path

/support/faq · /support/contact · /support/hrms-feedback

Accessible Roles

Public

Description / Business Purpose

This chapter documents the live UI for Support. Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Open Support → FAQ

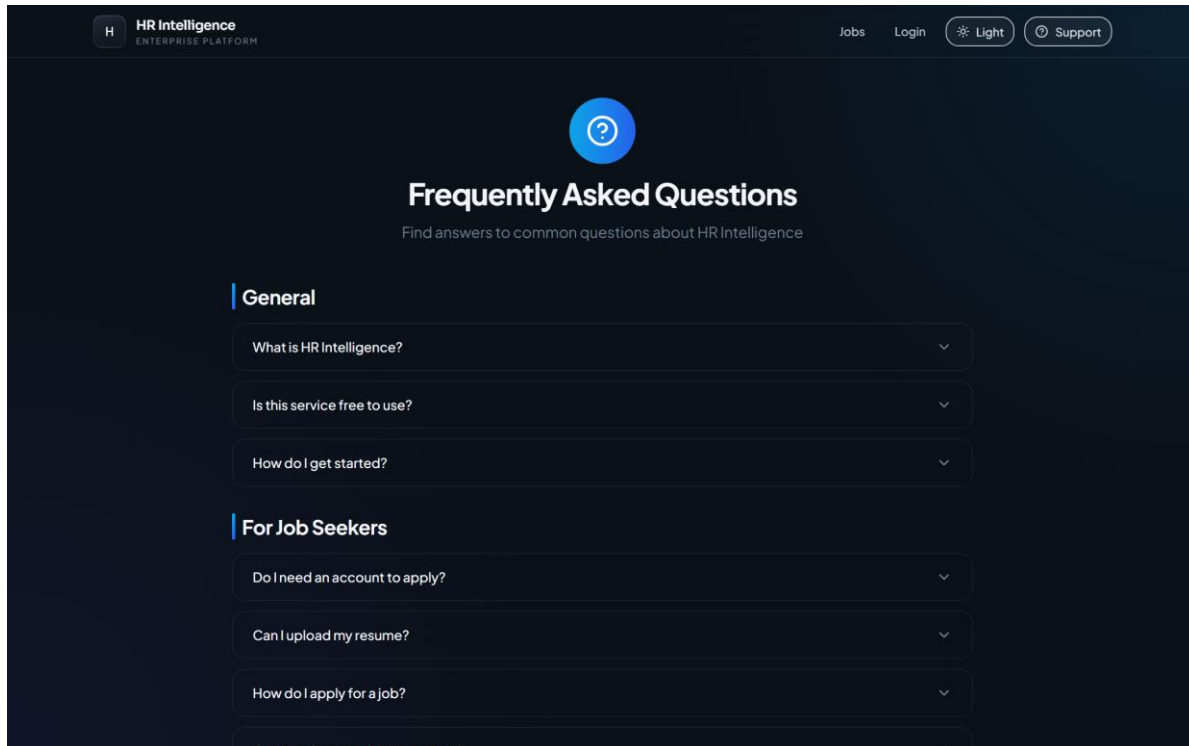

Figure 5.1 FAQ

Description:

- FAQ

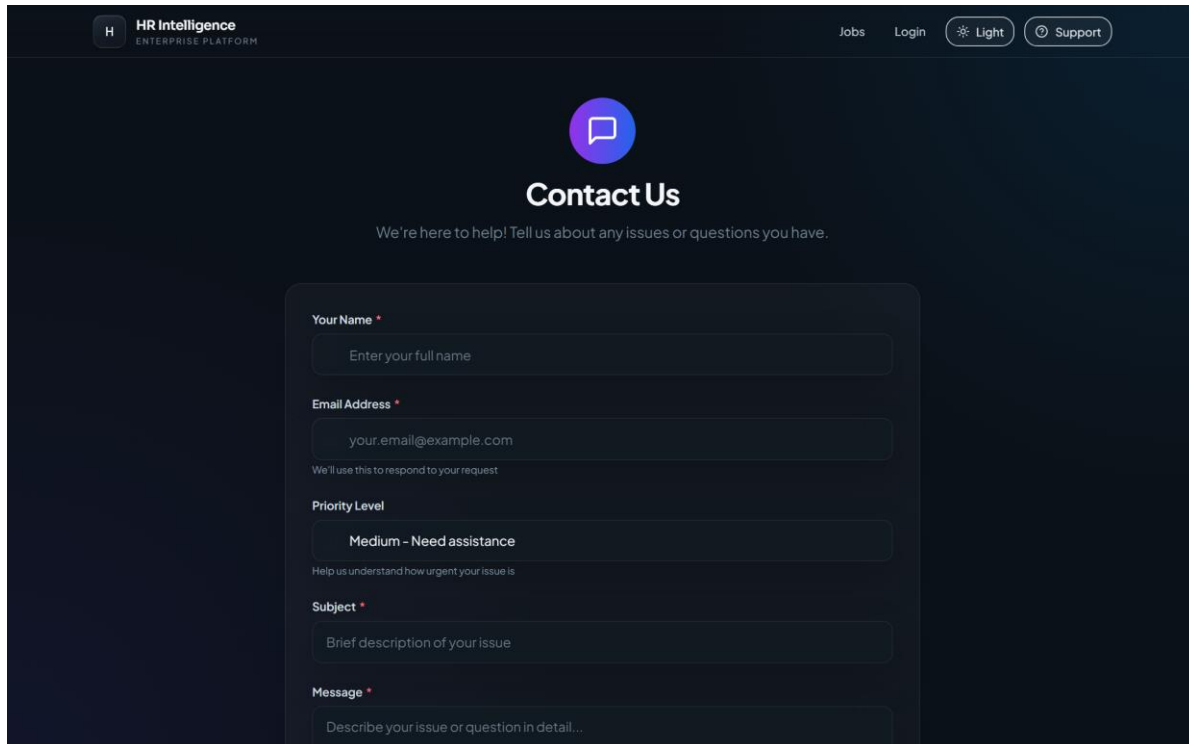

Expected Result:

- FAQ accordion page with common questions

Step 2

Action:

- Open Support → Contact Us

The screenshot shows the 'Contact Us' page of the HR Intelligence Enterprise Platform. The page has a dark blue background. At the top, there is a navigation bar with the HR Intelligence logo, 'Jobs', 'Login', 'Light' theme toggle, and 'Support' button. The main heading is 'Contact Us' with a speech bubble icon. Below the heading is a subtext: 'We're here to help! Tell us about any issues or questions you have.' The form is a light gray box with the following fields: 'Your Name' (text input), 'Email Address' (text input with placeholder 'your.email@example.com' and a note 'We'll use this to respond to your request'), 'Priority Level' (dropdown menu with 'Medium - Need assistance' selected and a note 'Help us understand how urgent your issue is'), 'Subject' (text input with placeholder 'Brief description of your issue'), and 'Message' (text area with placeholder 'Describe your issue or question in detail...').

Figure 5.2 Contact Us

Description:

- Contact Us

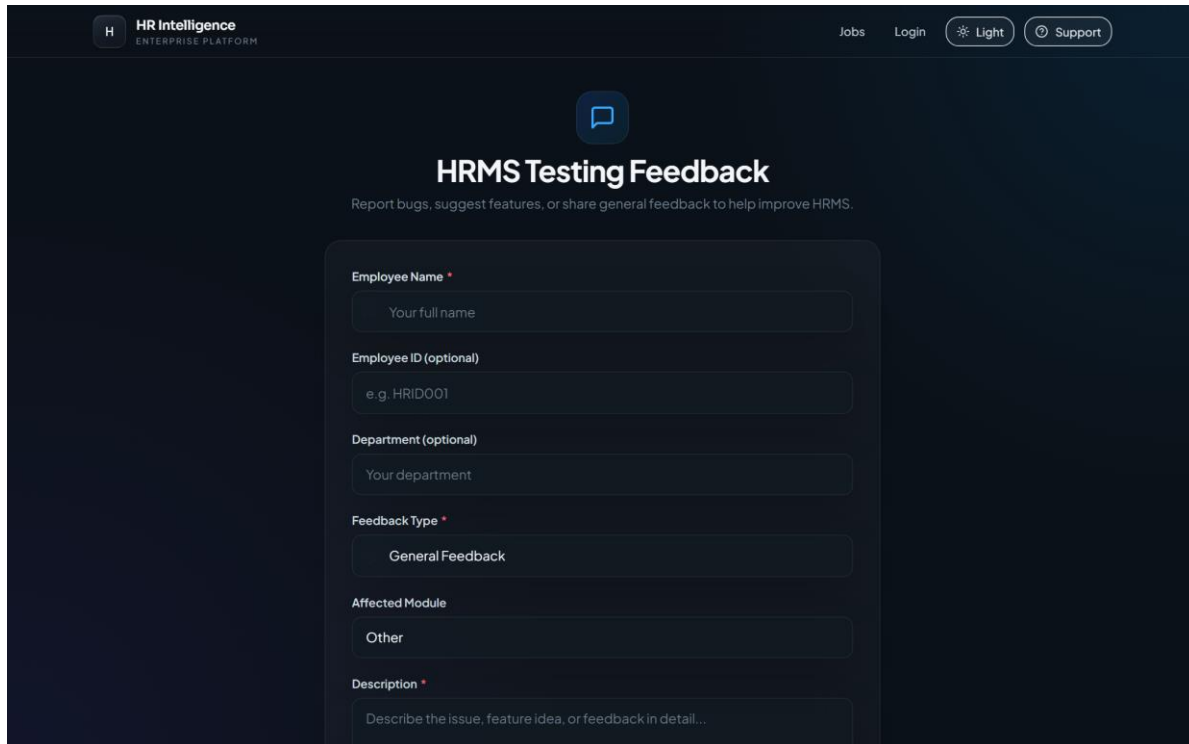

Expected Result:

- Support request form (name, email, subject, message, priority)

Step 3

Action:

- Open Support → HRMS Testing Feedback

The screenshot shows the 'HRMS Testing Feedback' form within the HR Intelligence Platform. The header includes the platform name, 'Jobs', 'Login', 'Light' theme toggle, and 'Support' link. The form is titled 'HRMS Testing Feedback' with a subtitle 'Report bugs, suggest features, or share general feedback to help improve HRMS.' The form fields are: 'Employee Name' (required, placeholder 'Your full name'), 'Employee ID (optional)' (placeholder 'e.g. HRID001'), 'Department (optional)' (placeholder 'Your department'), 'Feedback Type' (required, dropdown with 'General Feedback' selected), 'Affected Module' (dropdown with 'Other' selected), and 'Description' (required, placeholder 'Describe the issue, feature idea, or feedback in detail...').

Figure 5.3 HRMS Testing Feedback

Description:

- HRMS Testing Feedback

Expected Result:

- Feedback form for type, module, severity, description, screenshot

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

6. Head HR Overview Dashboard

Purpose

Organization overview, job posting, and Head HR panel entry (Workspace / Tools sidebar).

Navigation Path

/head-hr

Accessible Roles

HEAD_HR

Description / Business Purpose

This chapter documents the live UI for Head HR Overview Dashboard. Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Sign in as Head HR (or open /head-hr)

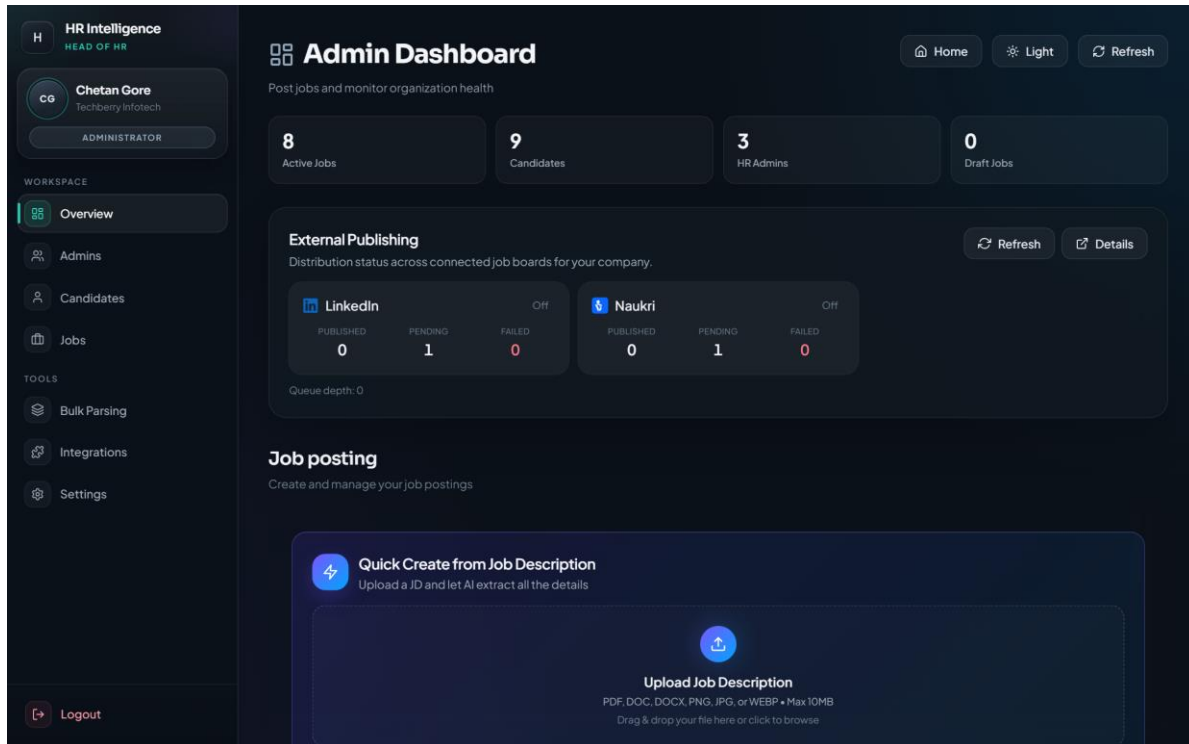

Figure 6.1 Head HR Overview Dashboard

Description:

- Head HR Overview Dashboard

Expected Result:

- Head of HR sidebar (Workspace / Tools), org snapshot, and job posting tools

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

7. Admins

Purpose

Create and manage recruiter/admin HR accounts for the organization.

Navigation Path

/head-hr/admins

Accessible Roles

HEAD_HR

Description / Business Purpose

This chapter documents the live UI for Admins. Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Sidebar → Admins

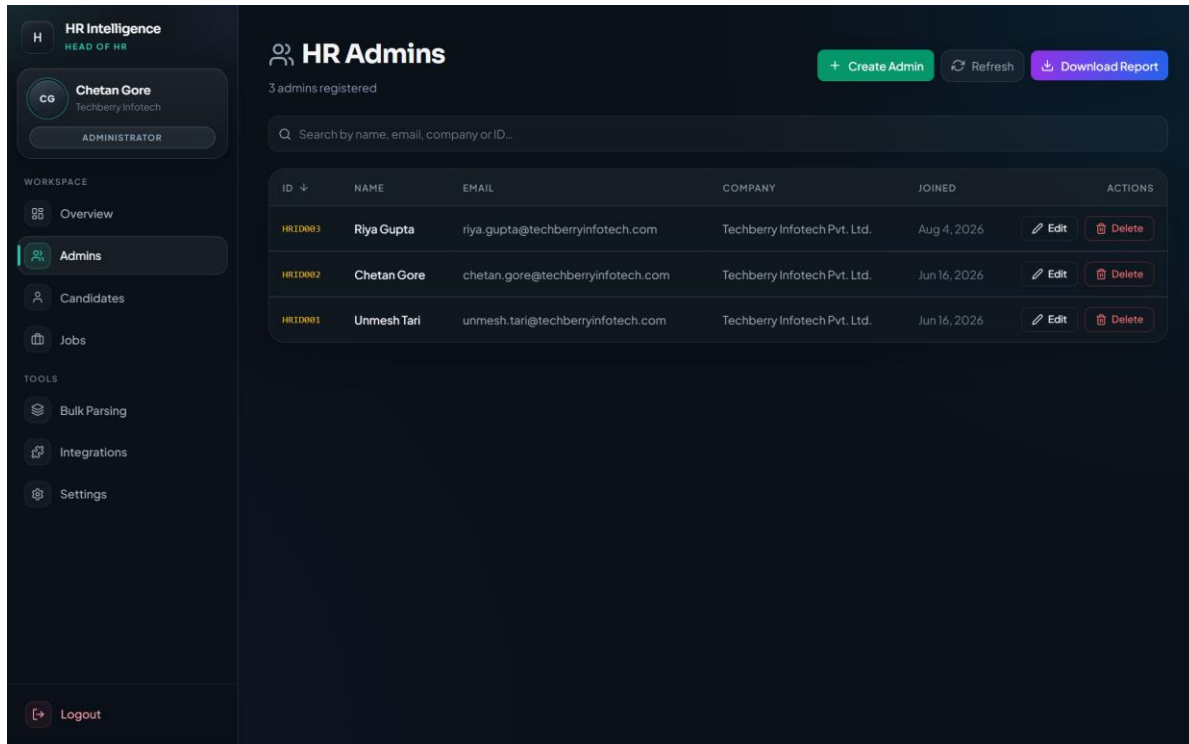

Figure 7.1 Admins management

Description:

- Admins management

Expected Result:

- Table of HR admin/recruiter accounts with create/delete actions

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

8. Head HR Candidates

Purpose

Org-wide candidate list and candidate detail.

Navigation Path

/head-hr/candidates · /head-hr/candidates/:cid

Accessible Roles

HEAD_HR (CEO uses /ceo/candidates read-only)

Description / Business Purpose

This chapter documents the live UI for Head HR Candidates. Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Sidebar → Candidates

Candidates
9 applicants who applied to one or more jobs

Search by name, email, job, or ID...

Figure 8.1 Candidates list

Description:

- Candidates list

Expected Result:

- Org-wide candidate table with search and row actions

Step 2

Action:

- Open candidate CID012 from the candidates list

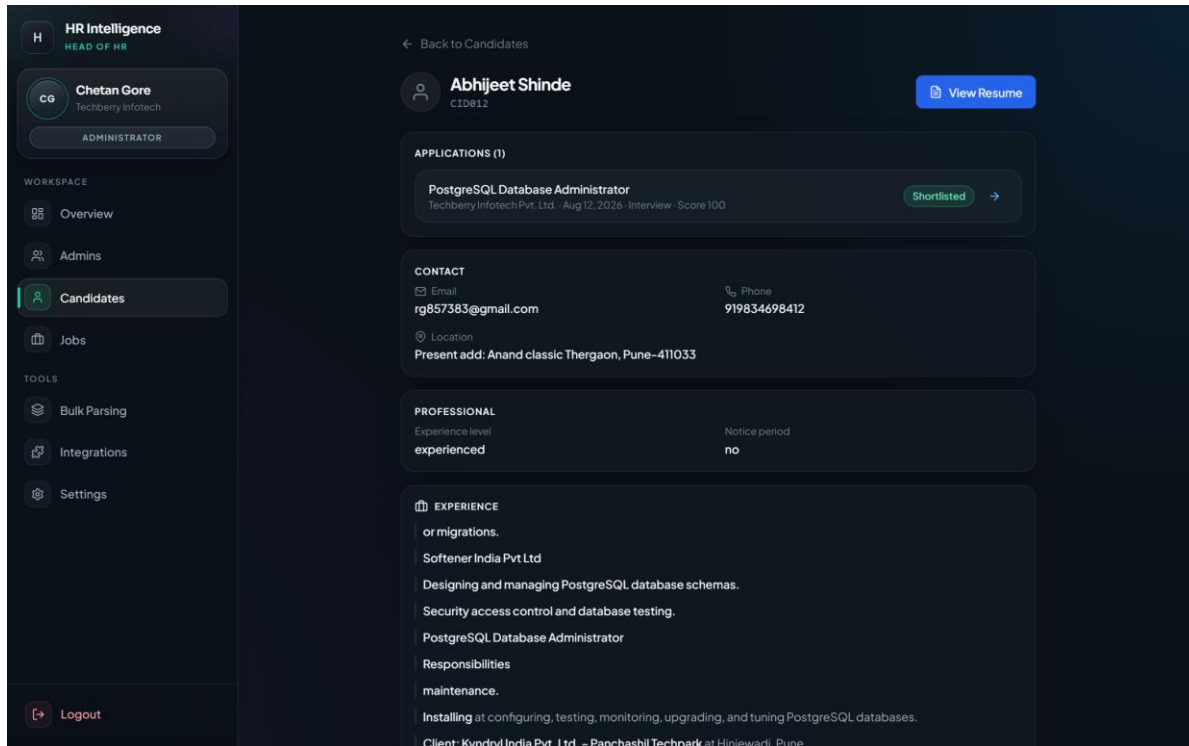

Figure 8.2 Candidate detail

Description:

- Candidate detail

Expected Result:

- Candidate profile detail for the selected CID

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

9. Head HR Jobs

Purpose

Organization job inventory with search and management actions.

Navigation Path

/head-hr/jobs

Accessible Roles

HEAD_HR

Description / Business Purpose

This chapter documents the live UI for Head HR Jobs. Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Sidebar → Jobs

Figure 9.1 Head HR Jobs list

Description:

- Head HR Jobs list

Expected Result:

- Organization job list with search, refresh, edit/delete (Head HR)

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

10. Head HR Job Details & Applied Candidates

Purpose

Inspect a job and its applicants.

Navigation Path

/head-hr/jobs/:jdid

Accessible Roles

HEAD_HR (CEO: /ceo/jobs/:jdid read-only)

Description / Business Purpose

This chapter documents the live UI for Head HR Job Details & Applied Candidates. Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Open job PDA001 from the jobs list

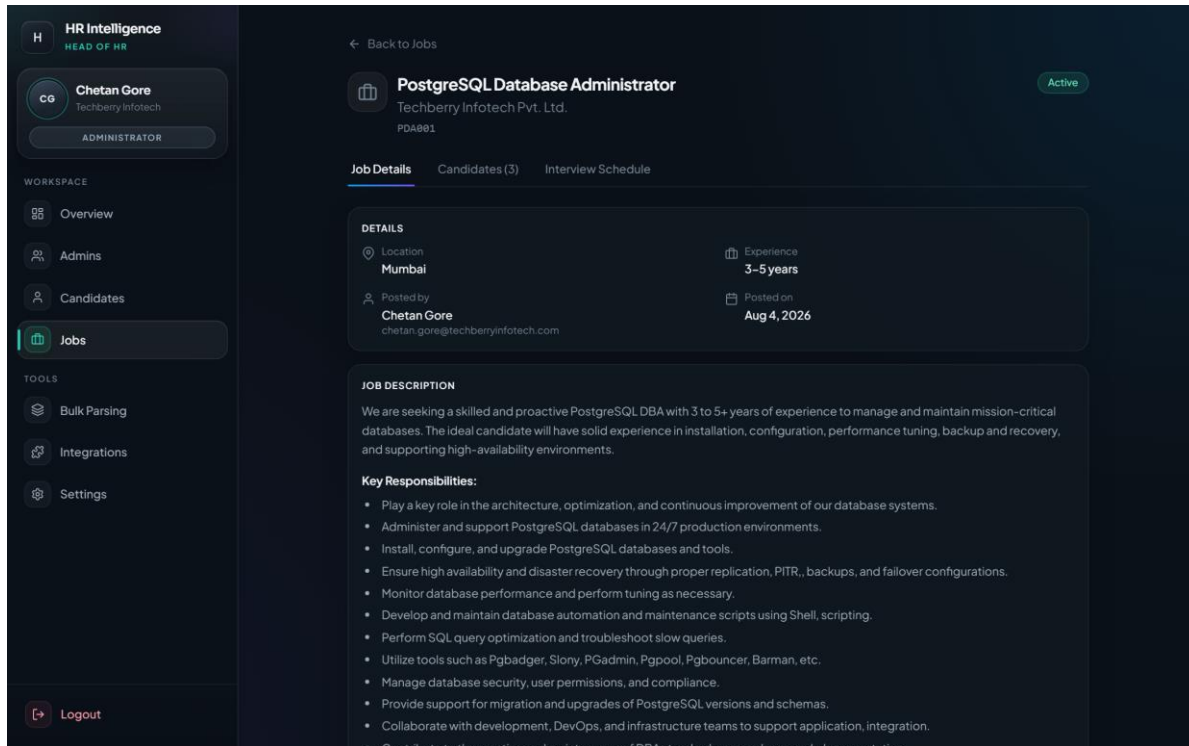

Figure 10.1 Job details with applicants

Description:

- Job details with applicants

Expected Result:

- Job Details / Candidates tabs with applicant rows

Step 2

Action:

- Open the Candidates tab on job detail

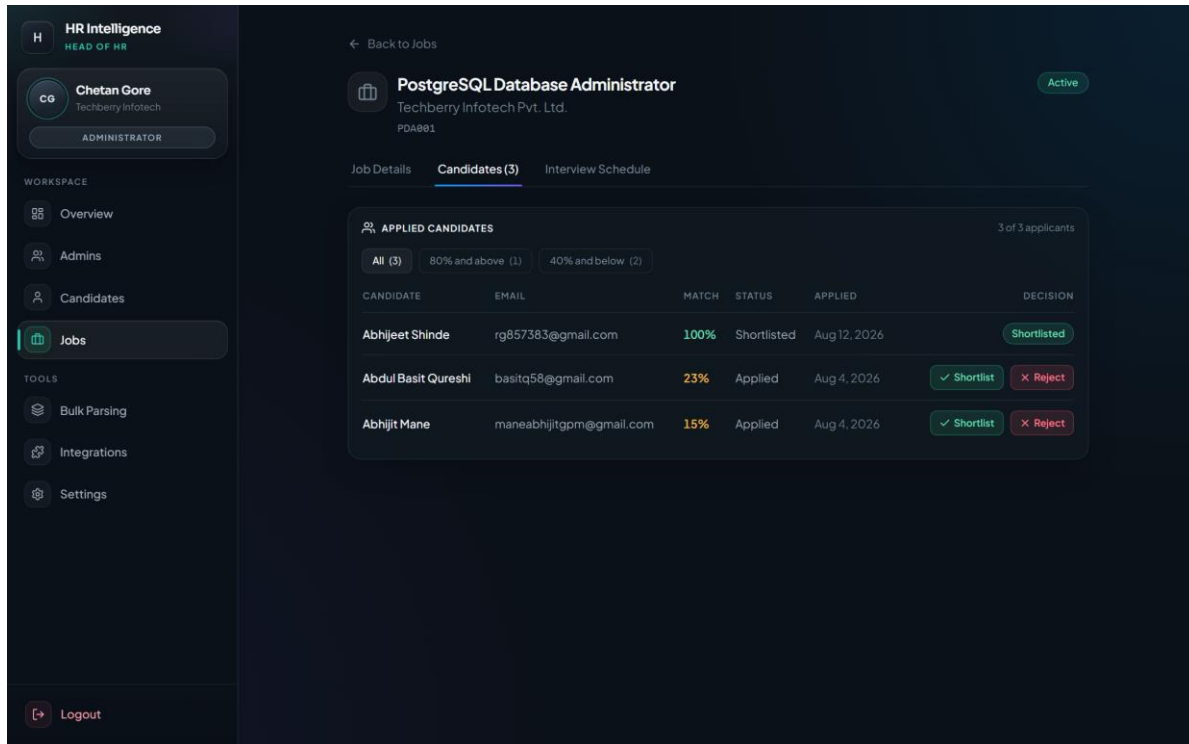

Figure 10.2 Applied candidates for job

Description:

- Applied candidates for job

Expected Result:

- Table of applicants for this job

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

11. Candidate Evaluation (Profile & Match)

Purpose

Review applicant profile and ATS match analysis for a job application.

Navigation Path

/head-hr/jobs/:jdid/candidates/:cid

Accessible Roles

HEAD_HR; CEO read-only under /ceo/...

Description / Business Purpose

This chapter documents the live UI for Candidate Evaluation (Profile & Match). Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Open applicant CID012 for job PDA001

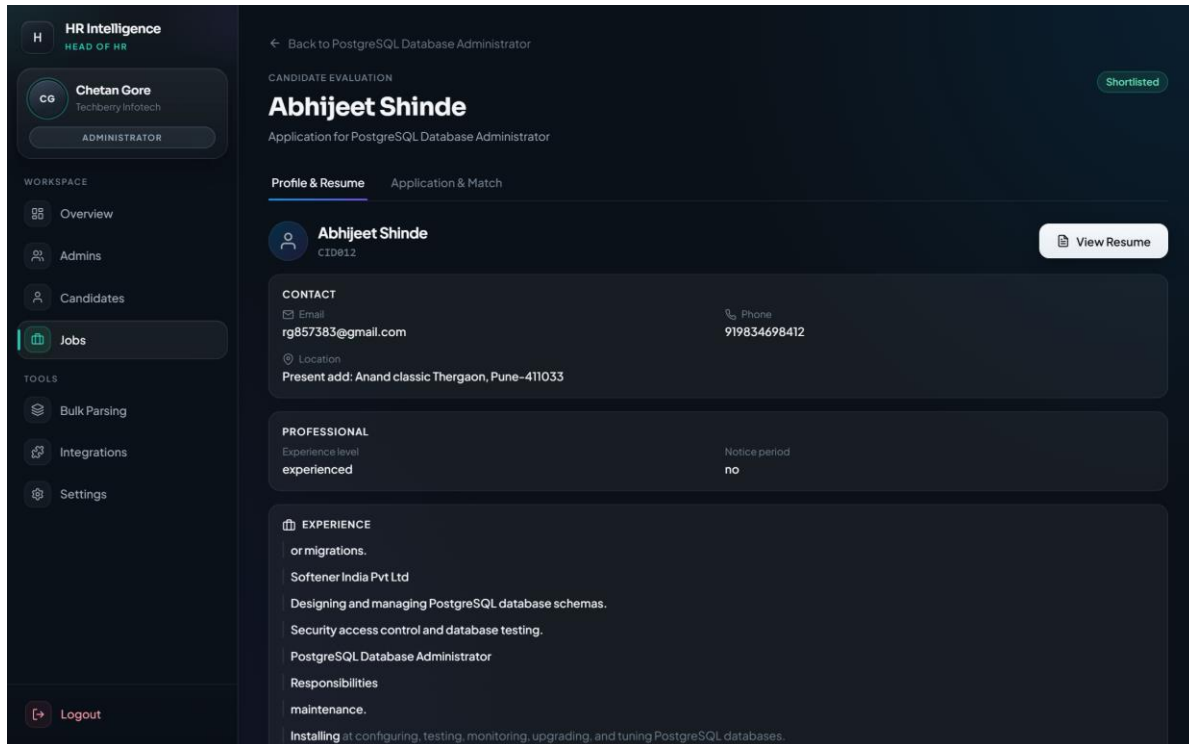

Figure 11.1 Candidate Evaluation — Profile & Resume

Description:

- Candidate Evaluation — Profile & Resume

Expected Result:

- Profile & Resume tab with candidate identity and resume actions

Step 2

Action:

- Open Application & Match tab

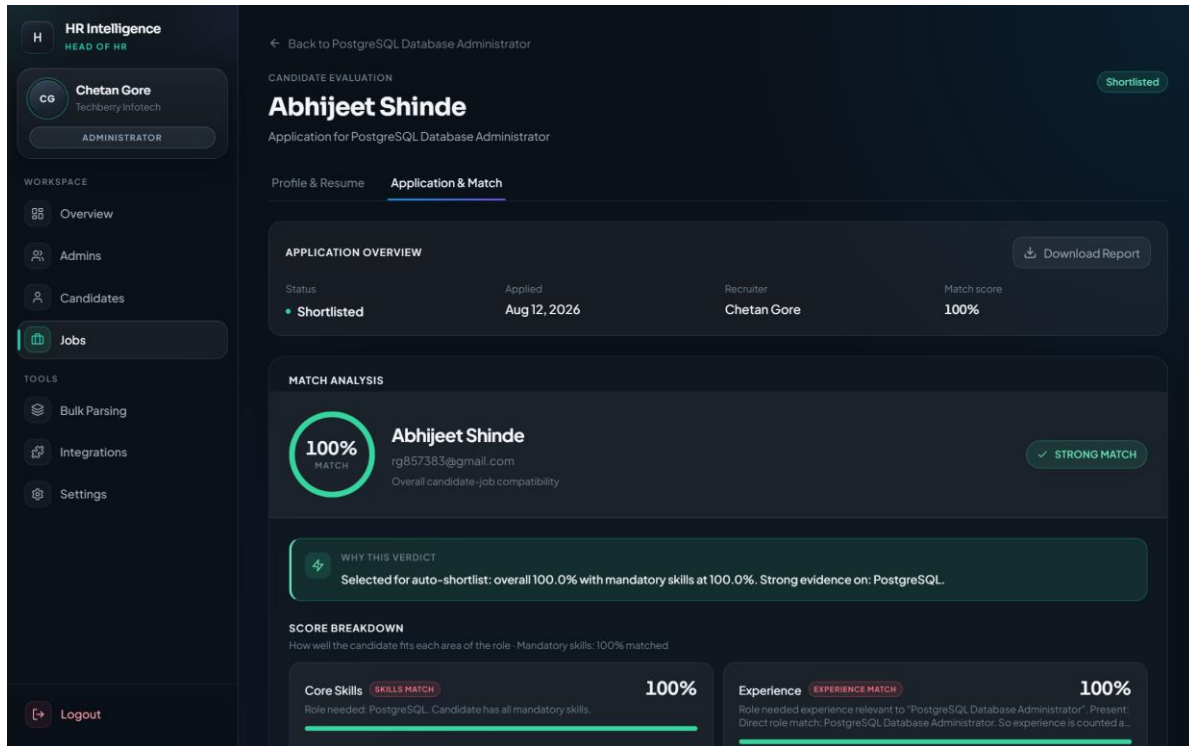

Figure 11.2 Candidate Evaluation — Application & Match

Description:

- Candidate Evaluation — Application & Match

Expected Result:

- ATS score, verdict, and match breakdown

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

12. Bulk Resume Parser (Head HR)

Purpose

Batch-parse resumes from ZIP/files.

Navigation Path

/head-hr/bulk-parsing

Accessible Roles

HEAD_HR

Description / Business Purpose

This chapter documents the live UI for Bulk Resume Parser (Head HR). Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Sidebar → Bulk Parsing

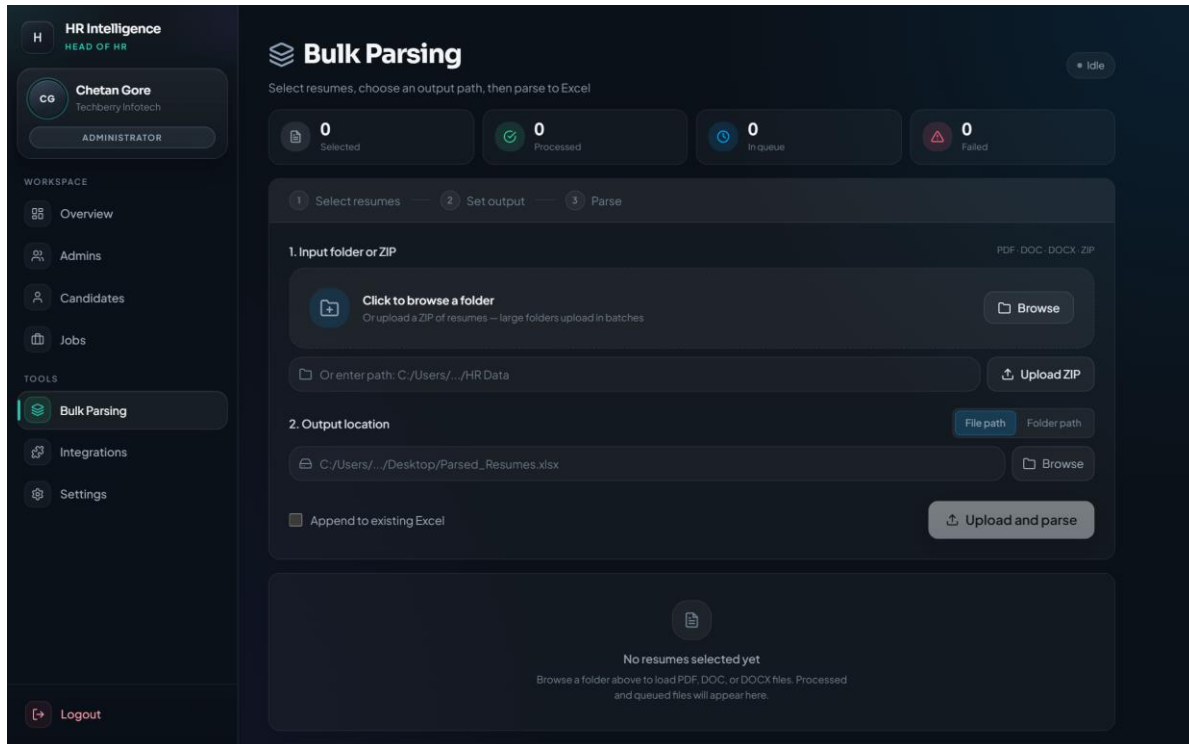

Figure 12.1 Bulk Resume Parser (Head HR)

Description:

- Bulk Resume Parser (Head HR)

Expected Result:

- Bulk upload workspace (ZIP/files, output, parse controls)

Step 2

Action:

- Click Browse or Upload ZIP and choose files in the system file dialog

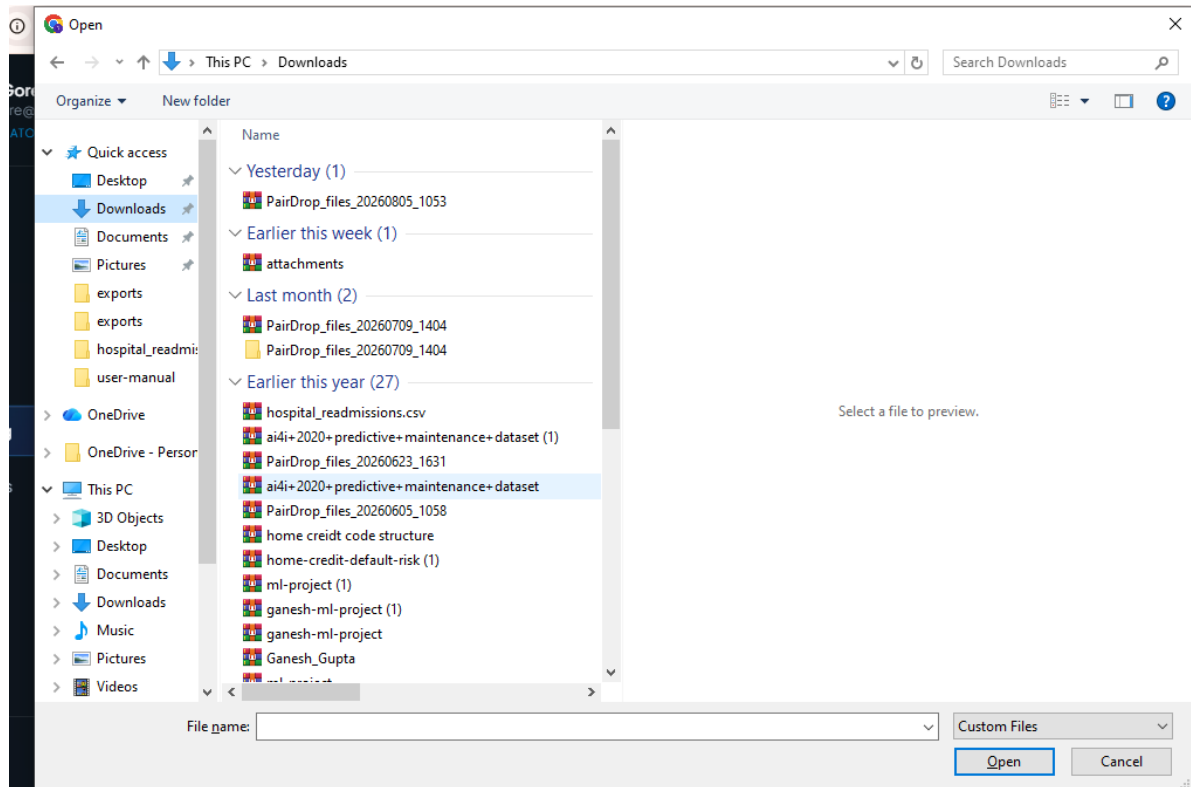

Figure 12.2 Browse and select ZIP or resume files

Description:

- Browse and select ZIP or resume files

Expected Result:

- Windows Open dialog appears so you can select a ZIP or resume files from your computer

Step 3

Action:

- After selecting input and output, start Parse and watch progress

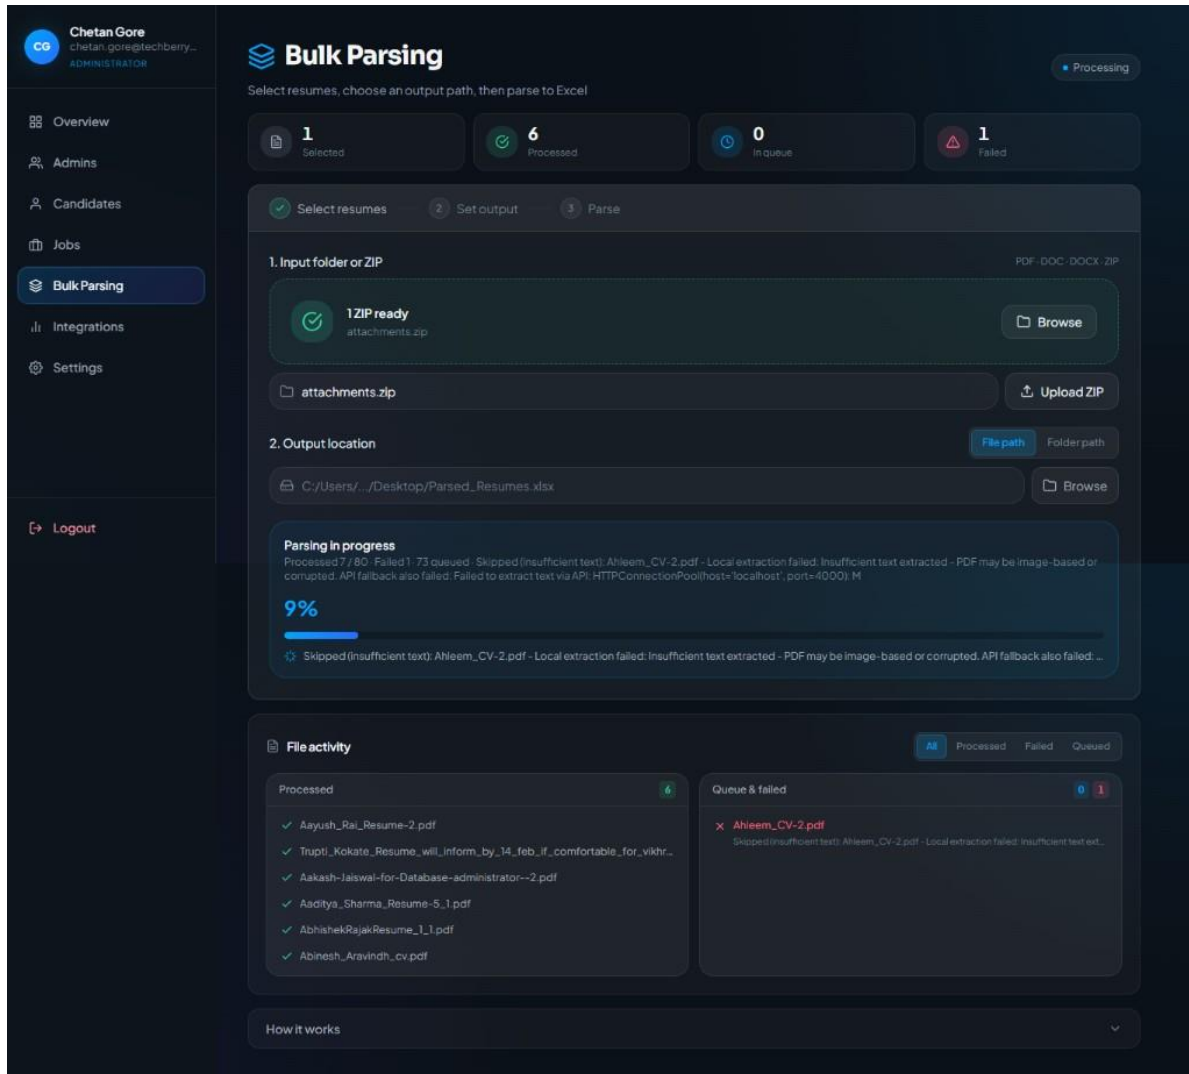

Figure 12.3 Bulk parsing in progress

Description:

- Bulk parsing in progress

Expected Result:

- Processing status, progress bar, processed/failed/queued counts, and file activity lists update live

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

13. Integrations (Head HR)

Purpose

Monitor external publishing integrations.

Navigation Path

/head-hr/integrations

Accessible Roles

HEAD_HR

Description / Business Purpose

This chapter documents the live UI for Integrations (Head HR). Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Sidebar → Integrations

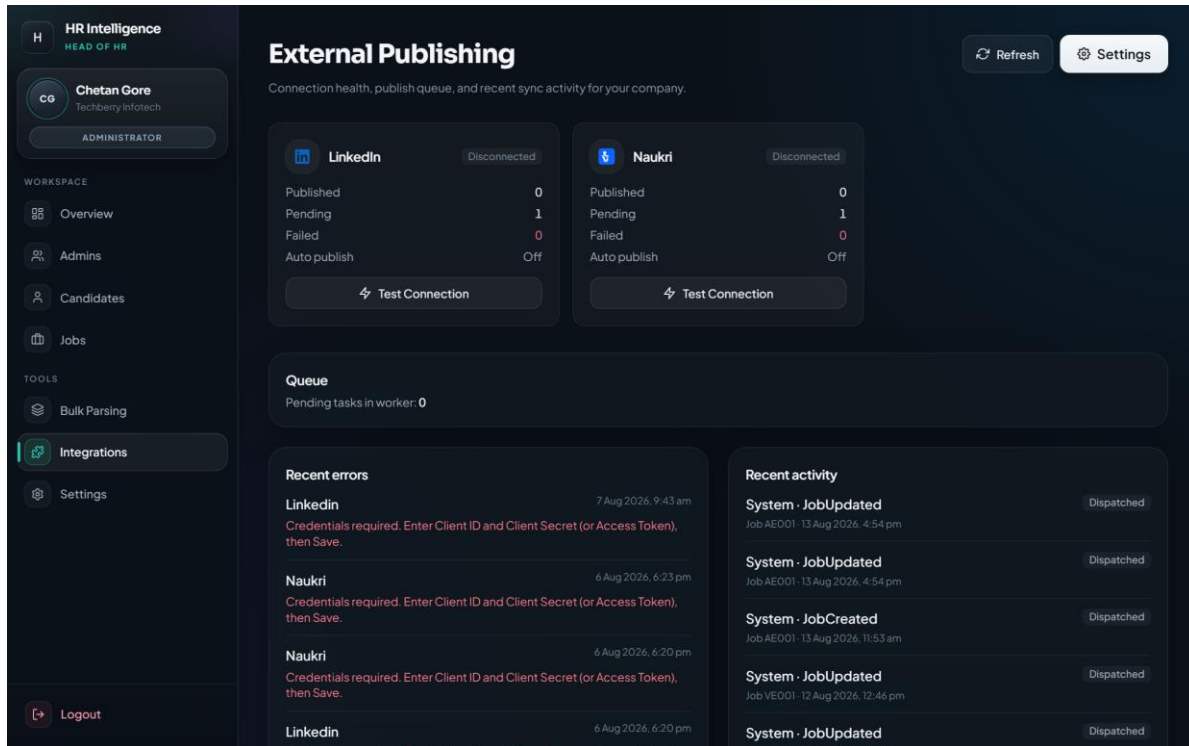

Figure 13.1 Integrations (Head HR)

Description:

- Integrations (Head HR)

Expected Result:

- External publishing / integrations dashboard

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

14. Head HR Settings

Purpose

Security (password) and integrations settings for Head HR.

Navigation Path

/head-hr/settings

Accessible Roles

HEAD_HR

Description / Business Purpose

This chapter documents the live UI for Head HR Settings. Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Sidebar → Settings

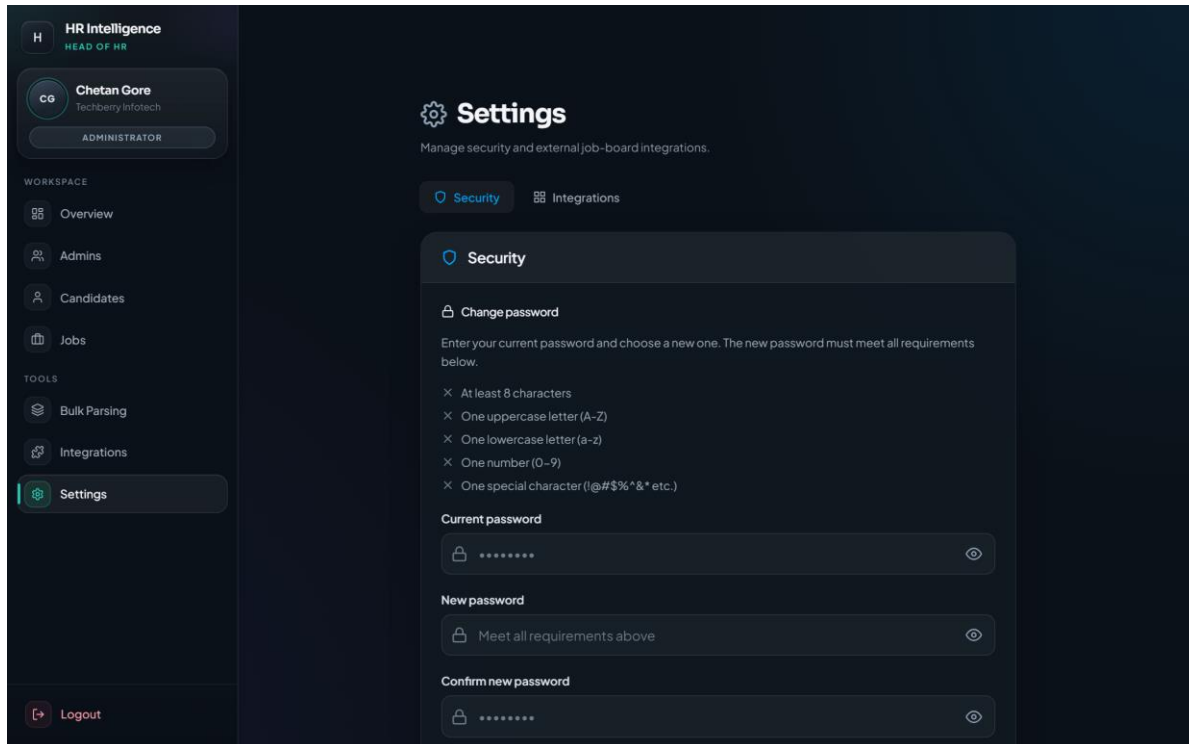

Figure 14.1 Head HR Settings

Description:

- Head HR Settings

Expected Result:

- Settings page with Security / Integrations tabs

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

15. Recruiter Dashboard

Purpose

Recruiter home for creating, editing, publishing, and managing own jobs.

Navigation Path

/dashboard

Accessible Roles

RECRUITER

Description / Business Purpose

This chapter documents the live UI for Recruiter Dashboard. Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Sign in as Recruiter (lands on /dashboard)

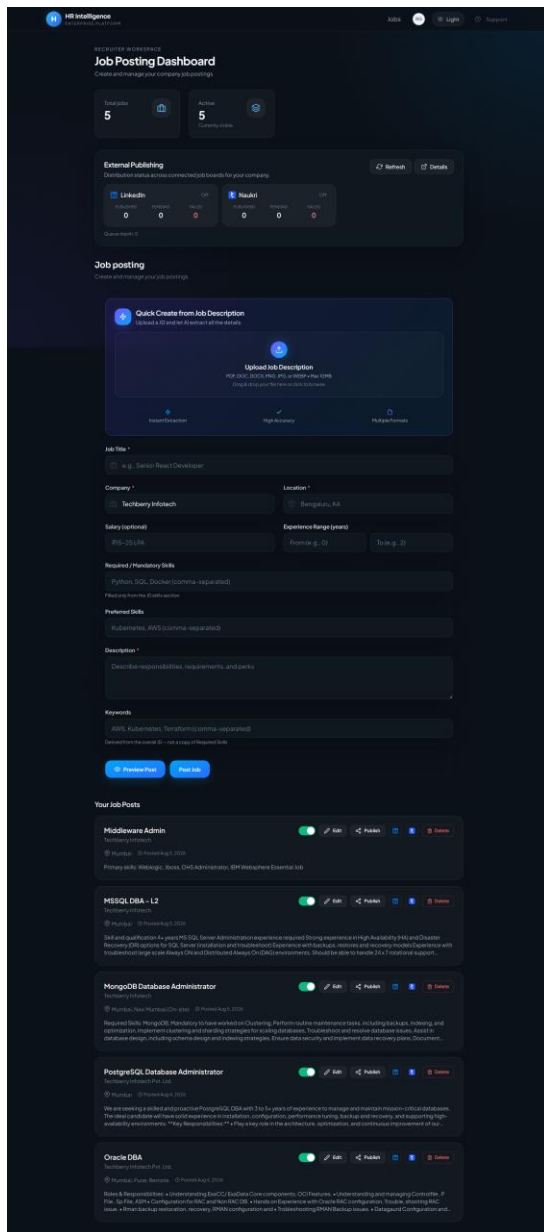

Figure 15.1 Recruiter Dashboard

Description:

- Recruiter Dashboard

Expected Result:

- Recruiter stats, publishing section, and job create/list workspace

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

16. Applied Candidates (Recruiter)

Purpose

Shortlist/reject applicants and view match reasons for recruiter jobs.

Navigation Path

/candidates

Accessible Roles

RECRUITER

Description / Business Purpose

This chapter documents the live UI for Applied Candidates (Recruiter). Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Navbar avatar menu → Candidates

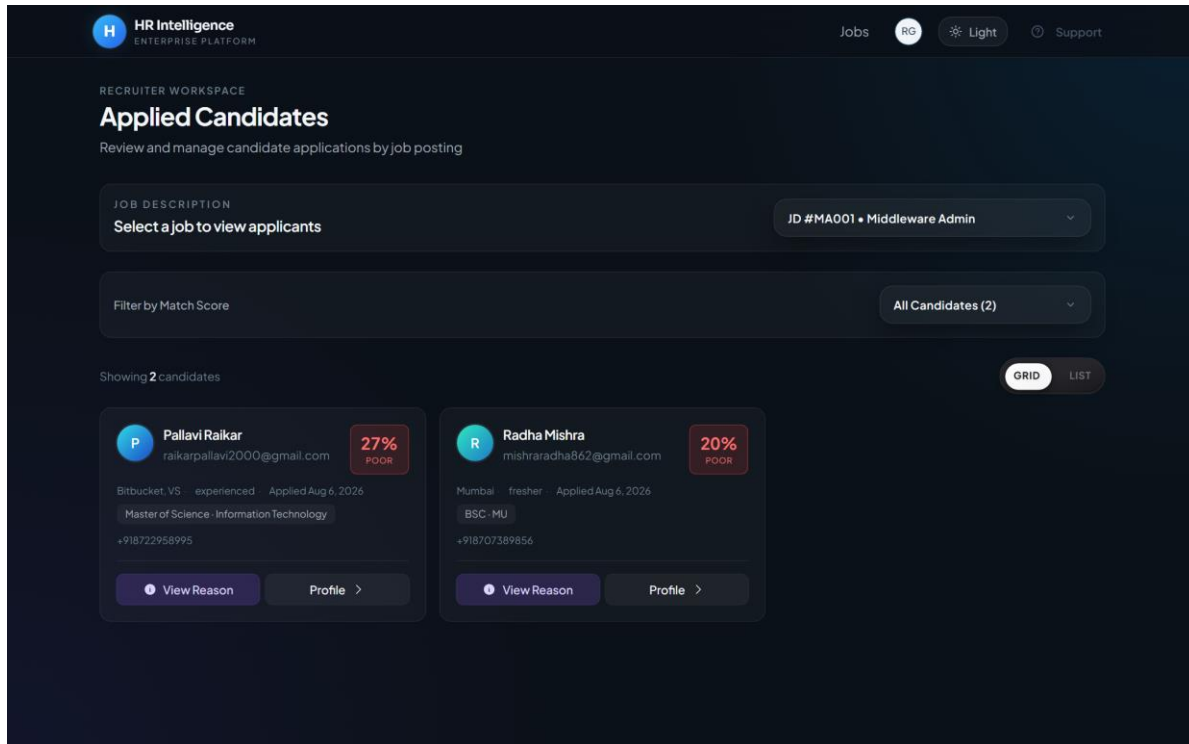

Figure 16.1 Applied Candidates (Recruiter)

Description:

- Applied Candidates (Recruiter)

Expected Result:

- Applicants for recruiter jobs with shortlist/reject and match reason

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

17. Bulk Resume Parser (Recruiter)

Purpose

Recruiter entry to the bulk resume parser.

Navigation Path

/admin/bulk-resume-parser

Accessible Roles

RECRUITER

Description / Business Purpose

This chapter documents the live UI for Bulk Resume Parser (Recruiter). Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Navbar avatar menu → Bulk Resume Parser

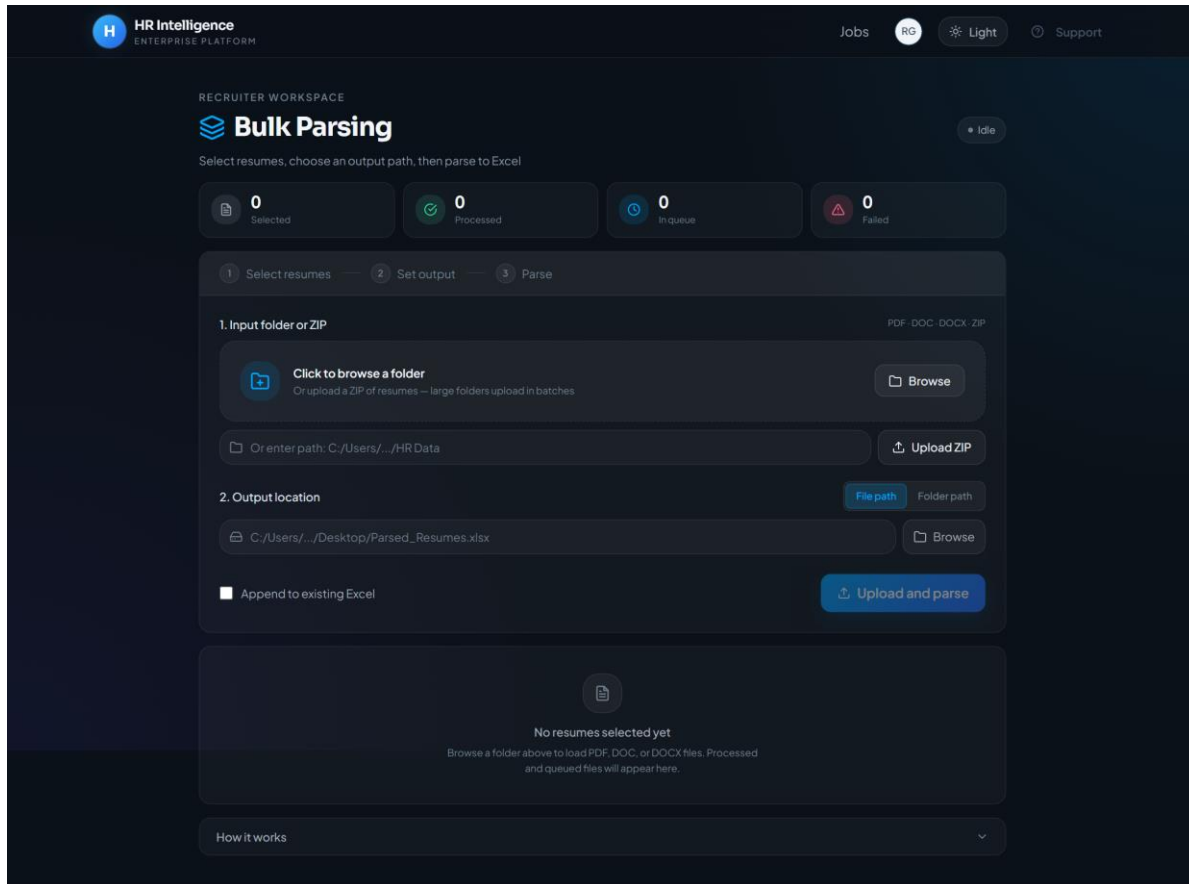

Figure 17.1 Bulk Resume Parser (Recruiter)

Description:

- Bulk Resume Parser (Recruiter)

Expected Result:

- Same bulk parsing workspace under /admin/bulk-resume-parser

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

18. Feedback Admin

Purpose

Review HRMS testing feedback submissions.

Navigation Path

/admin/feedback

Accessible Roles

RECRUITER

Description / Business Purpose

This chapter documents the live UI for Feedback Admin. Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Navbar avatar menu → Feedback (Admin)

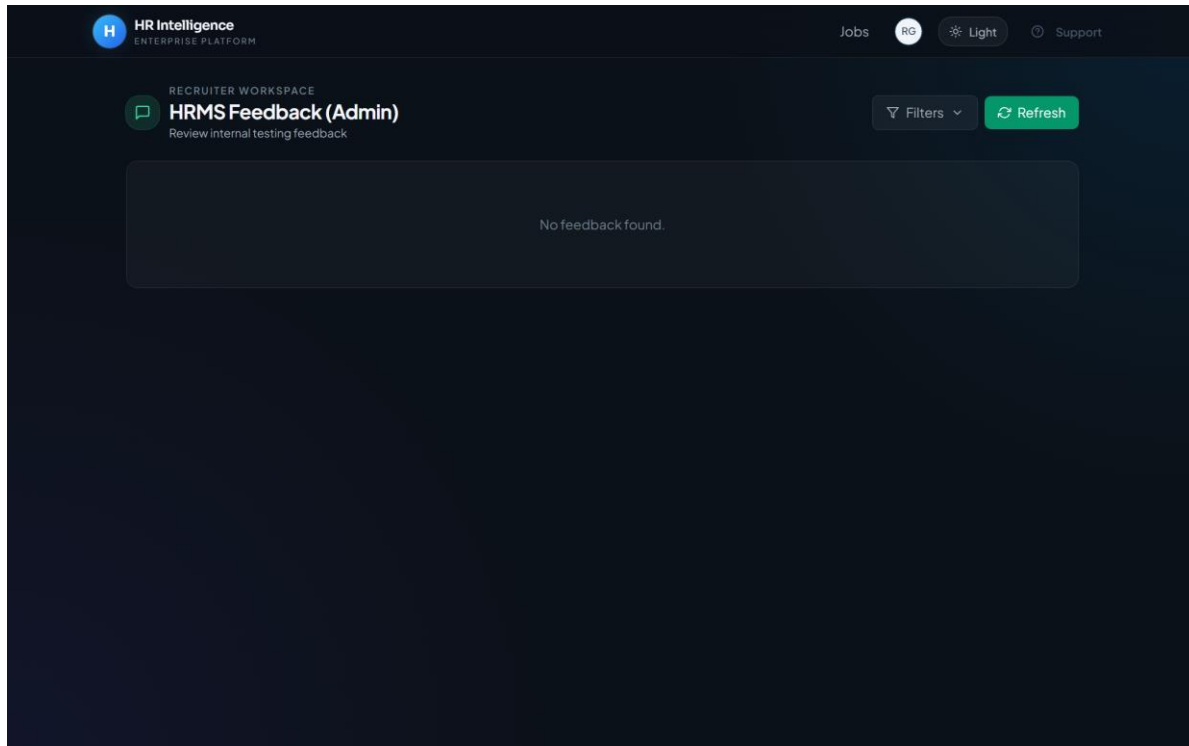

Figure 18.1 Feedback Admin

Description:

- Feedback Admin

Expected Result:

- Feedback inbox with filters and refresh

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

19. Integrations (Staff)

Purpose

Integrations dashboard available to signed-in staff via navbar/settings routes.

Navigation Path

/integrations

Accessible Roles

RECRUITER | HEAD_HR | CEO

Description / Business Purpose

This chapter documents the live UI for Integrations (Staff). Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Navbar avatar menu → Integrations

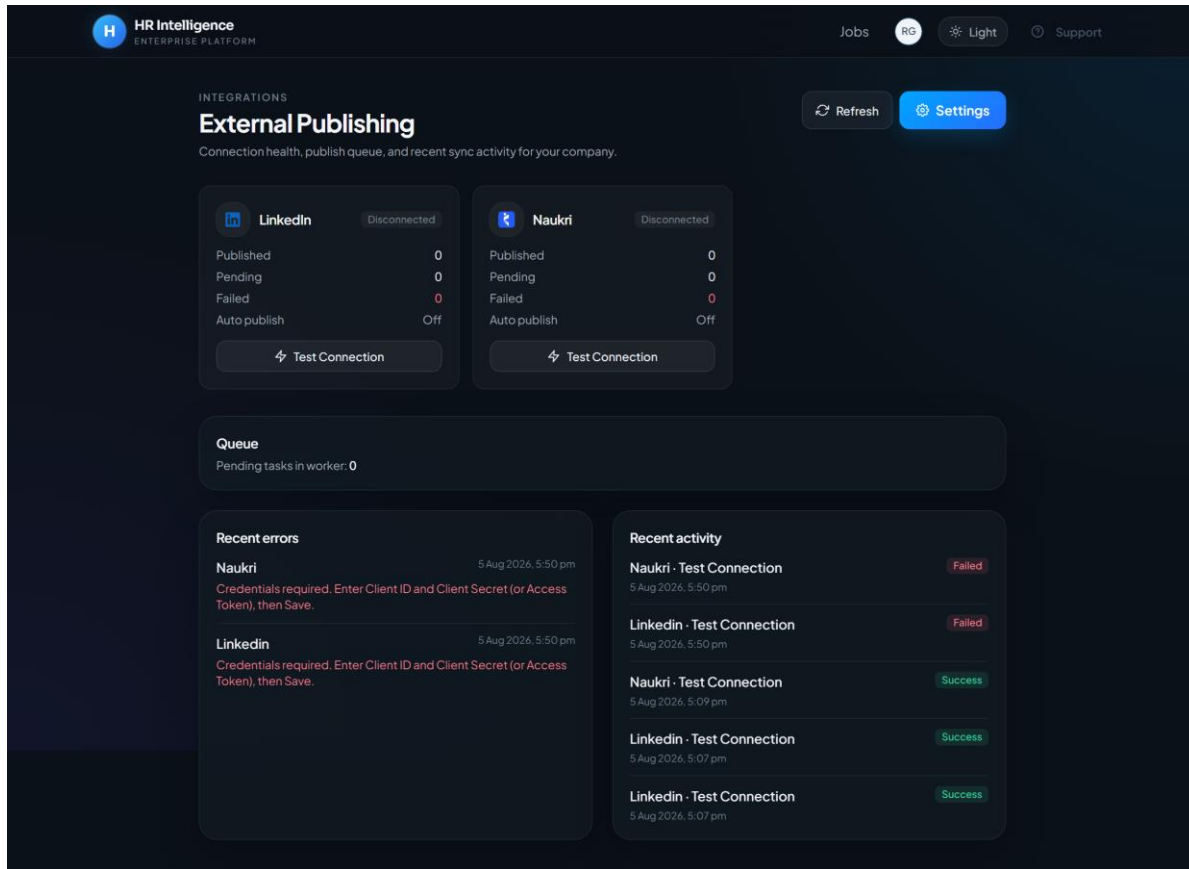

Figure 19.1 Integrations (Recruiter)

Description:

- Integrations (Recruiter)

Expected Result:

- Integrations dashboard for the recruiter session

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

20. Settings (Staff)

Purpose

Account security settings for signed-in staff.

Navigation Path

/settings

Accessible Roles

RECRUITER | HEAD_HR | CEO

Description / Business Purpose

This chapter documents the live UI for Settings (Staff). Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Navbar avatar menu → Settings

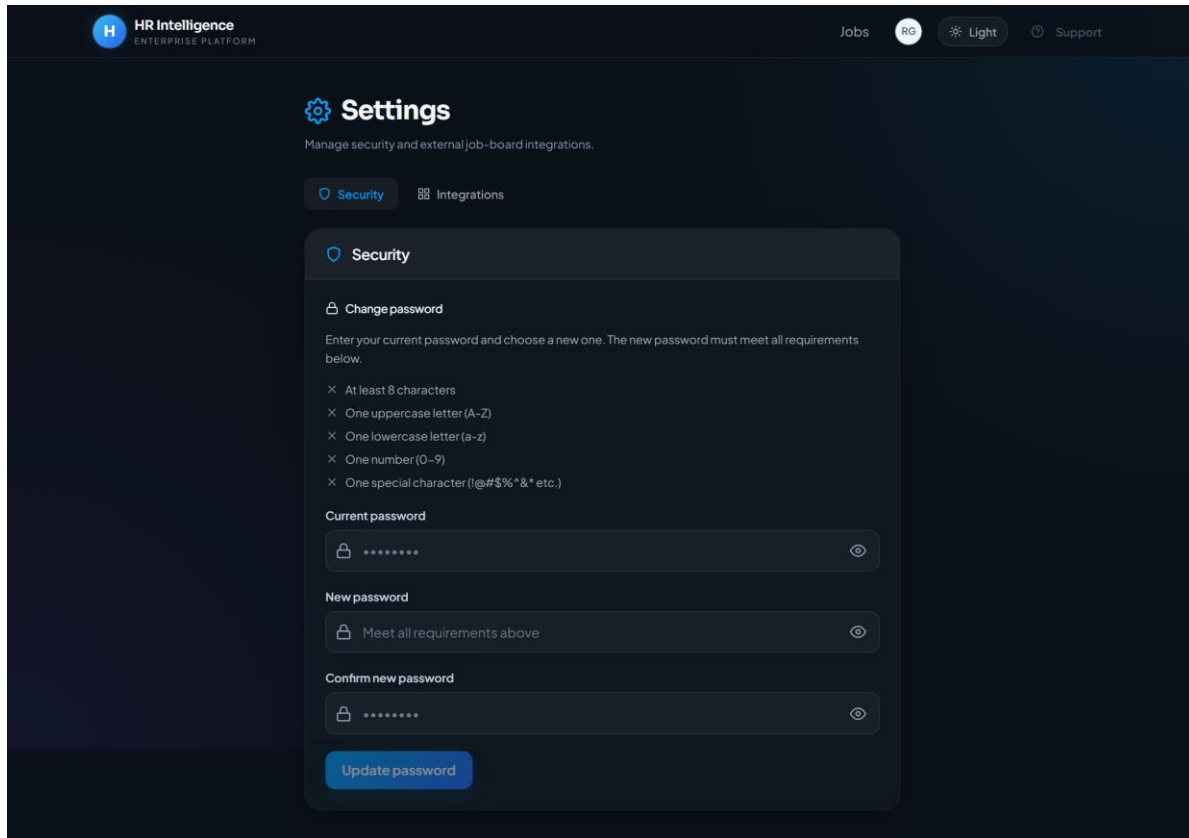

Figure 20.1 Settings (Recruiter)

Description:

- Settings (Recruiter)

Expected Result:

- Security password change and integrations settings tabs

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

21. CEO / Executive Dashboard

Purpose

Read-only executive views of overview analytics, jobs, candidates, and evaluation.

Navigation Path

/ceo · /ceo/jobs · /ceo/candidates

Accessible Roles

CEO

Description / Business Purpose

This chapter documents the live UI for CEO / Executive Dashboard. Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Sign in as CEO (lands on /ceo)

Figure 21.1 CEO / Executive Overview

Description:

- CEO / Executive Overview

Expected Result:

- Read-only Executive sidebar plus analytics (applications by status, match scores)

Figure 21.3 CEO Candidates (read-only)

Description:

- CEO Candidates (read-only)

Expected Result:

- Candidates list in read-only executive mode

Step 4

Action:

- Open /ceo/jobs/PDA001/candidates/CID012

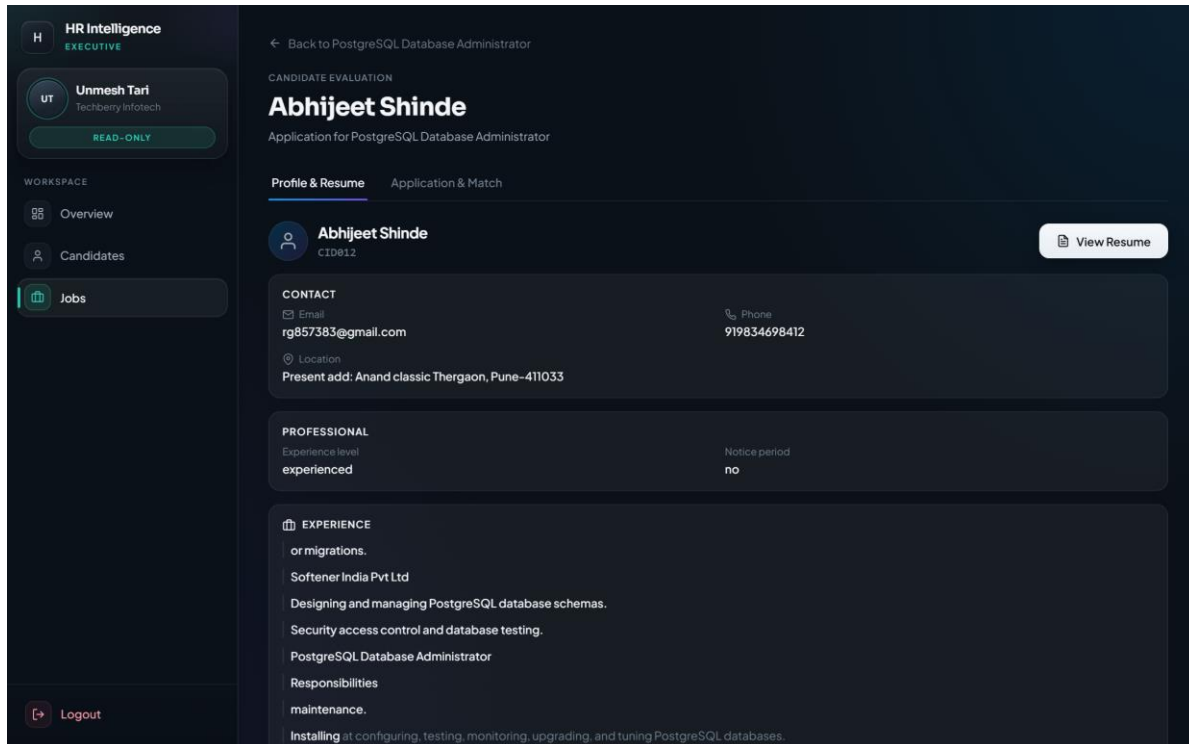

Figure 21.4 CEO candidate evaluation (read-only)

Description:

- CEO candidate evaluation (read-only)

Expected Result:

- Same evaluation UI as Head HR, without write actions

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

22. Logout

Purpose

End the authenticated session and return to login.

Navigation Path

Sidebar Logout (Head HR/CEO) or Navbar Logout (Recruiter)

Accessible Roles

RECRUITER | HEAD_HR | CEO

Description / Business Purpose

This chapter documents the live UI for Logout. Each step includes a full screenshot captured from the running application.

Step 1

Action:

- Locate Logout in the Head HR sidebar

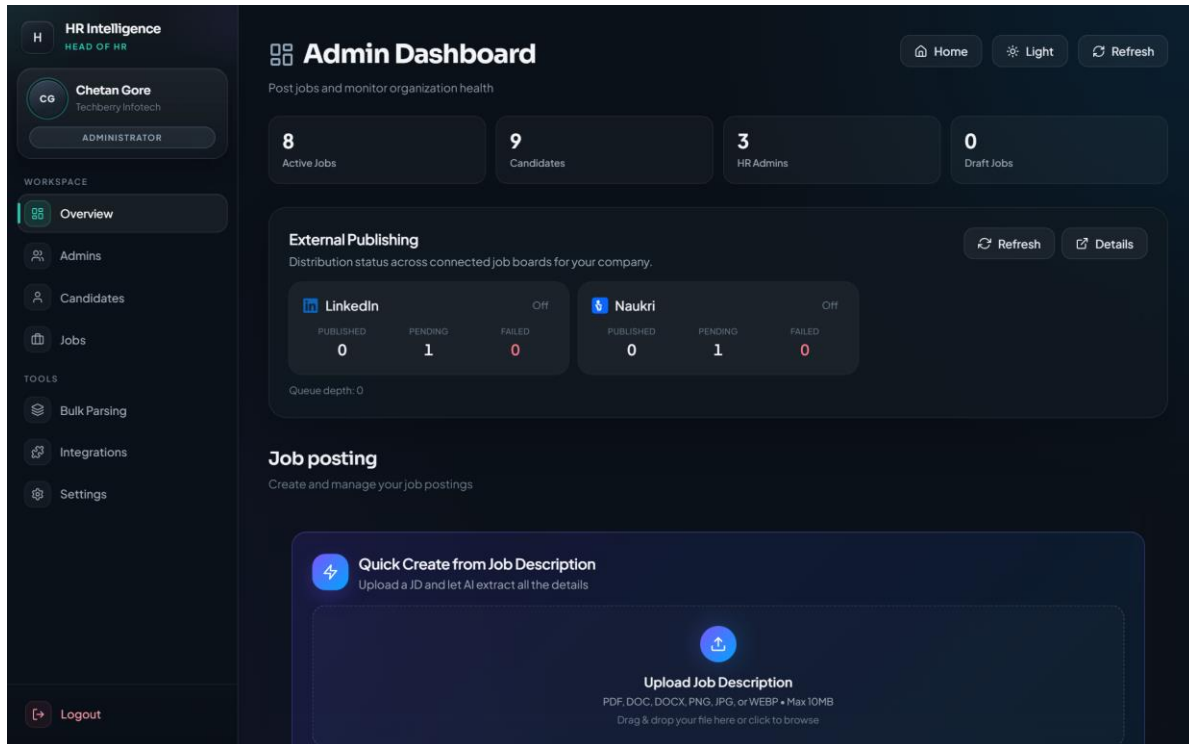

Figure 22.1 Logout control

Description:

- Logout control

Expected Result:

- Logout control is visible in the panel chrome

Step 2

Action:

- Click Logout

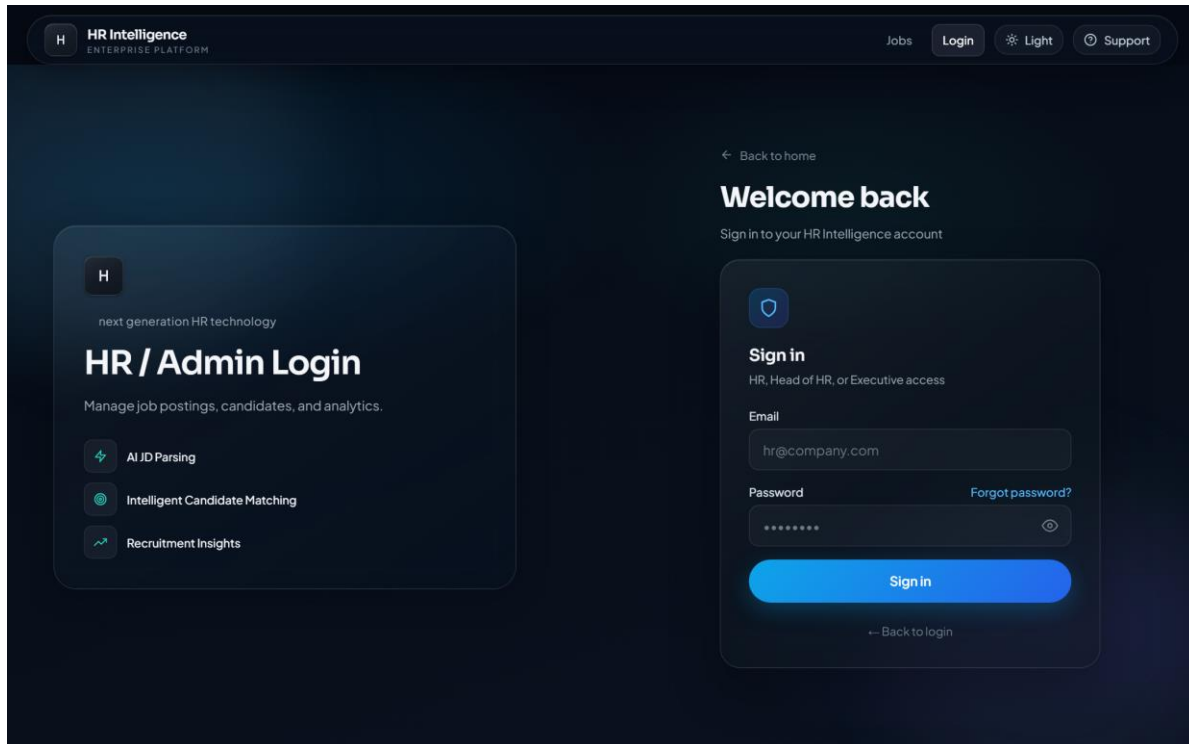

Figure 22.2 After logout

Description:

- After logout

Expected Result:

- Session cleared; user returned to admin login (or public home for recruiter)

Notes

- If a control is disabled, complete required fields first.
- Match scores depend on parsed JD and resume content.

23. Forms, Fields, and Buttons Reference

The following reference covers controls present in the shipped UI.

Job create / edit (Recruiter dashboard & Head HR overview posting)

Field	Purpose / notes
Job Title	Required display name of the role
Company	Usually from the staff account company
Location	City / region / remote indicator
Salary	Optional compensation text
Experience Range	Minimum and maximum years
Required / Mandatory Skills	Used by ATS skills gate
Preferred Skills	Nice-to-have skills
Description	Full job description
Keywords	Search/match context keywords

Primary buttons

Button	Behavior
Sign in	Authenticate staff at /login/admin
Get Started	From landing, open the public jobs board (/jobs)
Watch Demo	Open the Platform Demo video modal on the landing page
Contact Us	From landing #contact, open /support/contact
Apply	Open apply modal on public jobs board
Preview Post / Post Job	Preview and publish a job (Recruiter / Head HR)
Shortlist / Reject	Application status actions (Recruiter Applied Candidates)
Create Admin	Provision HR account (Head HR Admins)
Upload / Parse	Bulk resume parser actions
Logout	End session

24. Troubleshooting

Problem	What to try
Cannot sign in	Confirm email/password; use Forgot Password; verify role in hr_signup
Redirected away from a page	Role guards send users to their home panel (/dashboard, /head-hr, /ceo)
Job not on /jobs	Ensure the job is enabled/published
CEO cannot create jobs	Expected — CEO panel is read-only
Staff cannot Apply	Expected — signed-in staff are blocked from public apply
Match score unexpected	Confirm mandatory skills on JD and resume content

25. FAQs

Q: Is there a Super Admin role?

A: No separate SUPER_ADMIN enum. Admin Login authenticates RECRUITER, HEAD_HR, or CEO.

Q: Do candidates create accounts?

A: Public apply is passwordless via /jobs. Candidate JWT sessions are cleared.

Q: Can CEO edit jobs?

A: No — CEO routes share Head HR pages in read-only mode.

Q: Where is Feedback Admin?

A: Recruiter navbar → Feedback (Admin) at /admin/feedback.

Q: Where is HRMS Testing Feedback?

A: Public Support menu → /support/hrms-feedback.

26. Appendix

From repository root with the app running, regenerate this manual with:

- `python docs/user-manual/capture.py`
- `python docs/user-manual/build.py`
